1. Introduction

1.1 Purpose of this Manual

This manual explains how to use the NHIS (New Health Insurance Scheme) Portal of the Government of Tamil Nadu. It provides step-by-step instructions, screenshots, and field descriptions for each screen, so that users can complete their tasks correctly and confidently.

1.2 Intended Users

This manual is written for the following roles:

- **District Medical Officer (DMO)** – initiates and submits PreAuth requests (Sections 2 to 11) and submits claims (Section 13).
- **Approver (TPA)** – reviews and acts on submitted PreAuth requests (Section 12) and claims (Section 14).

Screens and options may differ for other user roles.

1.3 System Requirements

- A desktop or laptop computer with a stable internet connection.
- An up-to-date web browser such as Google Chrome, Microsoft Edge, or Mozilla Firefox.
- A valid NHIS Portal User ID and Password issued to the user.

1.4 Helpline

For any assistance, call the 24x7 toll-free helpline: **1800 425 3993**.

2. Logging in to the NHIS Portal (DMO)

The login page is the entry point to the NHIS Portal. The DMO must log in with a valid User ID, Password, and Captcha before accessing any module.

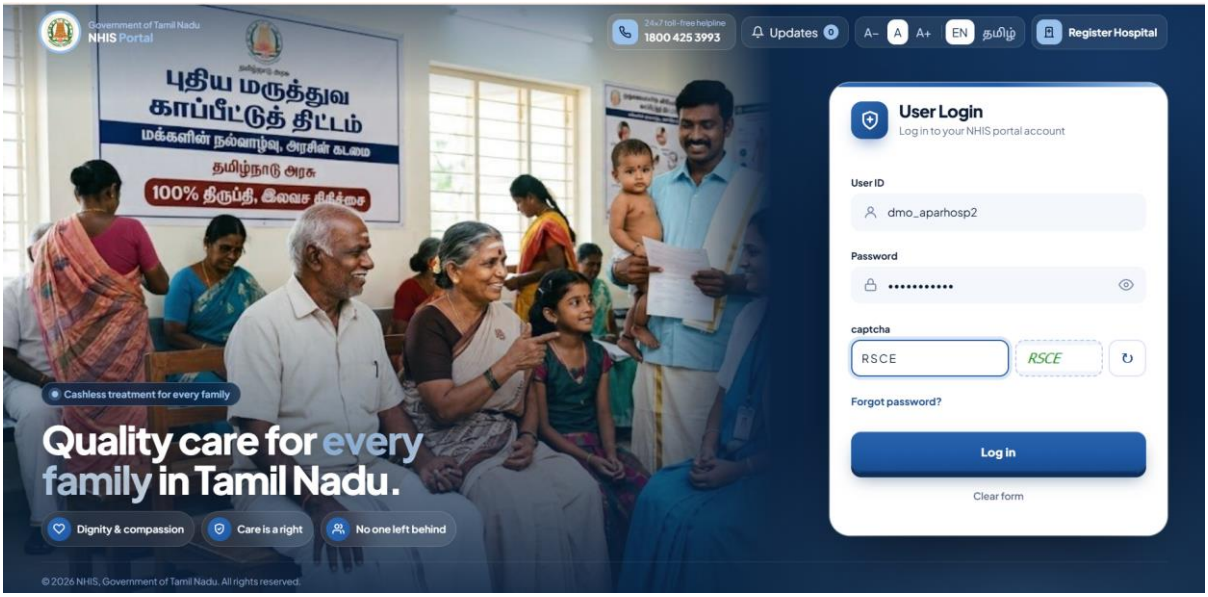

Figure 2.1: NHIS Portal – User Login page

2.1 Step-by-Step Login Procedure

Step 1: Open your web browser and go to the NHIS Portal URL provided by your department.

Step 2: The NHIS Portal home page opens with the **User Login** panel on the right side.

Step 3: In the **User ID** field, enter the User ID assigned to you as DMO (for example, **dmo_aparhosp2**).

Step 4: In the **Password** field, enter your password. Click the eye icon to show or hide the password and confirm it is typed correctly.

Step 5: Read the characters displayed in the Captcha image (for example, **RSCE**) and type them exactly in the **Captcha** field.

Step 6: If the Captcha is not clear, click the **Refresh (↻)** button to load a new Captcha, then enter the new characters.

Step 7: Click the **Log in** button.

Step 8: On successful validation, the system opens the **Preauth Inbox** landing page (see Section 3).

> **Note:** If any entry is wrong, click Clear form to erase all fields and enter the details again.

2.2 Login Field Descriptions

Field Name	Description	Mandatory	Example
User ID	Unique login ID issued to the DMO by the NHIS administrator.	Yes	dmo_aparhosp2
Password	Secret password linked to the User ID. Shown as dots for security; the eye icon shows or hides it.	Yes	••••••••
Captcha	Security code shown in the image beside the field. Must be typed exactly as displayed to confirm a human user.	Yes	RSCE
Refresh (↻)	Loads a new Captcha image if the current one is unclear.	No	–
Forgot password?	Link to reset the password if it has been forgotten.	No	–
Log in	Button that validates the entered details and opens the portal.	–	–
Clear form	Clears all values entered in the login form.	–	–

2.3 Other Options on the Login Page

Option	Description
24x7 Toll-free Helpline	Displays the support number 1800 425 3993 for assistance at any time.
Updates	Shows the latest notifications and announcements. The number badge shows how many updates are available.
A– / A / A+	Decreases, resets, or increases the text size on the page for easier reading.
EN / Tamil	Switches the portal language between English and Tamil.
Register Hospital	Opens the hospital registration page for new hospitals joining the scheme.

2.4 Important Points

- The Captcha must be entered exactly as shown in the image.
- Do not share your User ID and Password with anyone.
- Always log out after completing your work, especially on a shared computer.
- If login fails repeatedly, use Forgot password? or contact the helpline.

3. Preauth Inbox (Landing Page)

After a successful login, the portal opens the Preauth Inbox. This page lists all pre-authorization requests, with their status, approved amount, and processing time. From here the user can search for a case, filter by status, open a case, and upload supporting files.

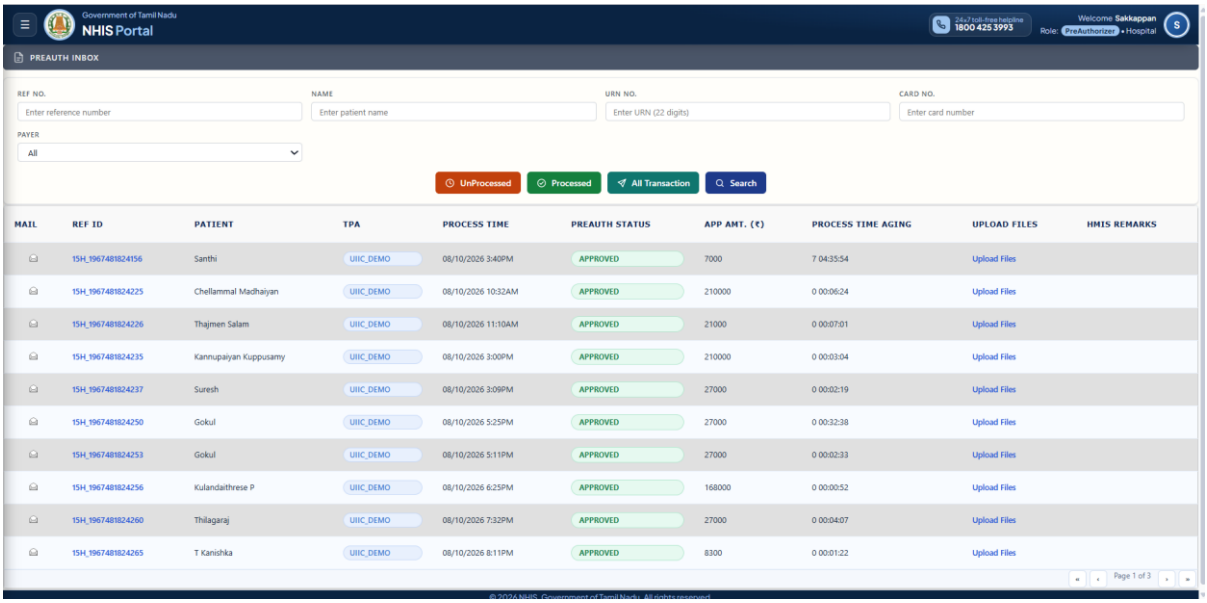

Figure 3.1: Preauth Inbox – landing page after login

3.1 Page Header

Element	Description
Menu (☰)	Opens the side navigation menu to access other modules of the portal.
NHIS Portal logo	Identifies the Government of Tamil Nadu NHIS Portal.
24x7 Toll-free Helpline	Displays the support number 1800 425 3993.
Welcome message	Shows the name of the logged-in user (for example, Sakkappan).
Role	Shows the role of the logged-in user (for example, PreAuthorizer) and the user type (Hospital).
Profile icon	Shows the user's initial. Click it to access profile options such as Logout.

3.2 Search Filters

Use the search filters at the top of the page to find a specific pre-authorization case. One or more filters can be used together.

Field Name	Description	Mandatory	Example
Ref No.	Pre-authorization reference number of the case.	No	15H_1967481824156
Name	Name of the patient.	No	Santhi
URN No.	Unique Reference Number of the beneficiary. Must be 22 digits.	No	22-digit number
Card No.	Insurance card number of the beneficiary.	No	–
Payer	Dropdown to filter cases by payer. Select All to show every payer.	No	All

3.3 Action Buttons

Button	Description
UnProcessed	Shows only cases that have not yet been processed.
Processed	Shows only cases that have already been processed.
All Transaction	Shows all cases, both processed and unprocessed.
Search	Searches for cases matching the values entered in the search filters.

3.4 How to Search for a Case

Step 1: Enter one or more search values: **Ref No.**, **Name**, **URN No.**, or **Card No.**.

Step 2: If required, select a payer from the **Payer** dropdown.

Step 3: Click the **Search** button.

Step 4: The matching cases are display in the results list below.

Step 5: To view cases by status, click **Unprocessed**, **Processed**, or **All Transaction**.

Step 6: Click the **Ref ID** link of a case to open its details.

3.5 Results List – Column Descriptions

Column	Description	Example
Mail	Envelope icon to view or send mail communication related to the case.	Envelope icon
Ref ID	Pre-authorization reference number. Click it to open the case details.	15H_1967481824156
Patient	Name of the patient.	Santhi
TPA	Third Party Administrator handling the case.	UIIC_DEMO
Process Time	Date and time when the case was processed.	08/10/2026 3:40PM
Preauth Status	Current status of the pre-authorization request.	APPROVED
App Amt. (₹)	Approved amount in Indian Rupees.	7000
Process Time Aging	Time taken to process the case, shown as days followed by hours:minutes:seconds.	7 04:35:54 (7 days, 4 hrs 35 min 54 sec)
Upload Files	Link to upload supporting documents for the case.	Upload Files
HMIS Remarks	Remarks received from the Hospital Management Information System, if any.	–

3.6 Page Navigation

The results are shown in pages. The page indicator at the bottom right shows the current page and the total number of pages (for example, Page 1 of 3). Use the navigation buttons to move between pages:

- **«** goes to the first page.
- **‹** goes to the previous page.
- **›** goes to the next page.
- **»** goes to the last page.

4. Main Menu and Initiating a New PreAuth

The Main Menu gives access to all modules of the NHIS Portal. To start a new pre-authorization request, the DMO opens the Main Menu and selects New PreAuth.

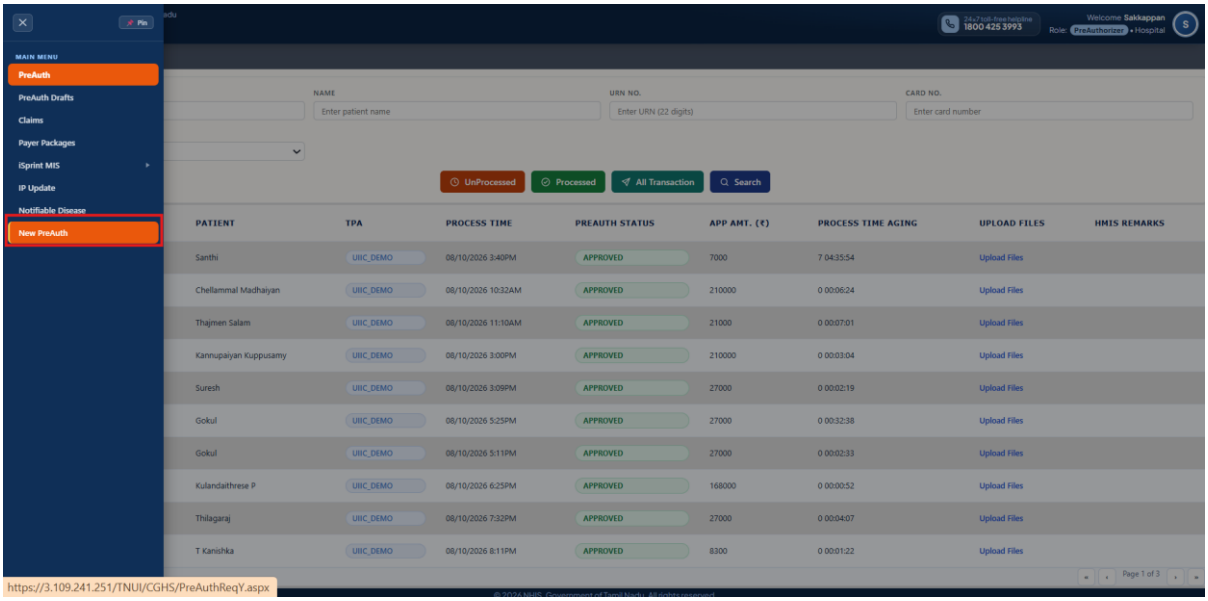

Figure 4.1: Main Menu with the New PreAuth option highlighted

4.1 Steps to Open New PreAuth

Step 1: From the Preauth Inbox, click the **Menu (☰)** button at the top-left corner of the page.

Step 2: The **Main Menu** panel opens on the left side of the screen.

Step 3: Click the **New Pre-Auth** option (highlighted in red in Figure 4.1).

Step 4: The New Pre-Auth request form opens, where the pre-authorization details are entered (see Section 5).

> **Tip:** Click Pin to keep the menu open while you work, or click the X button to close it.

4.2 Main Menu Options

Menu Option	Description
Pre-Auth	Opens the Preauth Inbox, which lists all pre-authorization requests (see Section 3).
Pre-Auth Drafts	Lists pre-authorization requests that were saved as drafts but not yet submitted.
Claims	Opens the claims module to view and process claims.
Payer Packages	Shows the treatment packages offered by each payer.
i-Sprint MIS	Opens a sub-menu (▸) with Management Information System reports.
IP Update	Used to update in-patient (IP) details.
Notifiable Disease	Used to record and report notifiable disease cases.
New Pre-Auth	Opens the form to initiate a new pre-authorization request.

4.3 Menu Panel Controls

Control	Description
X (Close)	Closes the Main Menu panel.
Pin	Keeps the Main Menu panel open on the screen.
Highlighted option	The orange-highlighted option shows the menu item that is currently selected.

5. New PreAuth Request Form

When the DMO clicks New PreAuth, the PreAuth Request form opens. The breadcrumb at the top shows PREAUTH › PreAuth Request. The Ref ID is blank at this stage and is generated by the system after the request is saved or submitted.

The first details to enter are the Health Scheme and the beneficiary's IFHRMS / Employee Number. After searching with the employee number, the employee-related details are filled in automatically.

5.1 Select the Health Scheme

Figure 5.1: PreAuth Request form – Health Scheme selection

Step 1: In the **Health Scheme** section, click the **Health Scheme** dropdown.

Step 2: Select the scheme that applies to the beneficiary: **Employee**, **Pensioner**, or **Board and University**.

Option	Description
-- Select --	Default value. A scheme must be selected before continuing.
Employee	Select for beneficiaries who are serving government employees.
Pensioner	Select for beneficiaries who are government pensioners.
Board and University	Select for beneficiaries who are employees of government boards and universities.

5.2 Search the Beneficiary by IFHRMS / Employee Number

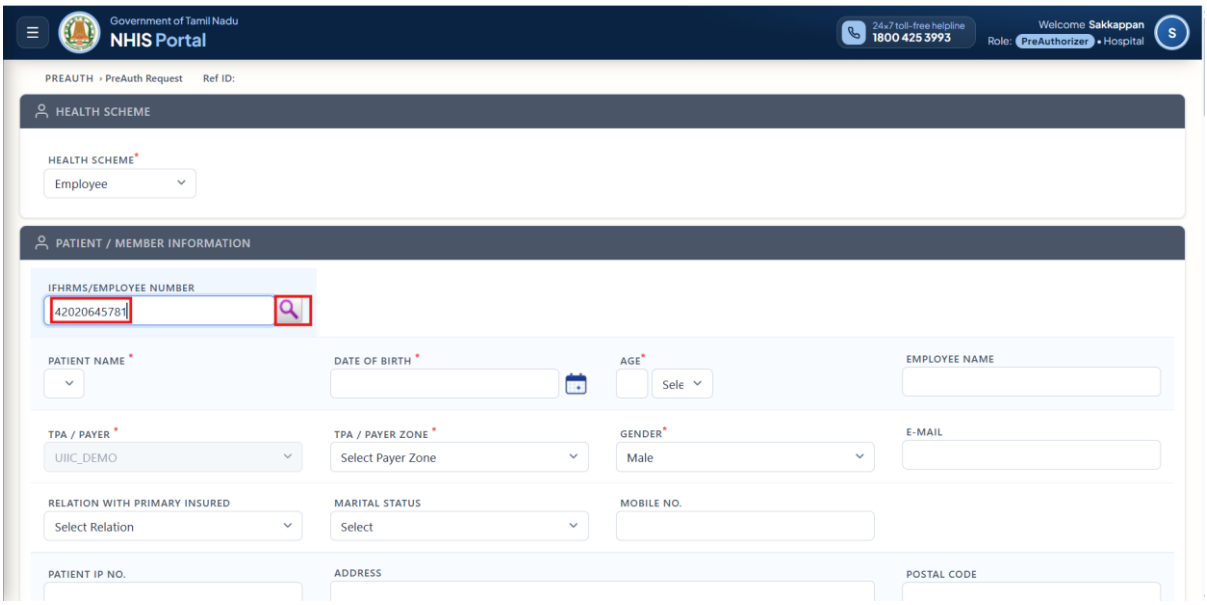

Figure 5.2: Entering the IFHRMS / Employee Number and clicking Search

Step 1: In the **Patient / Member Information** section, enter the beneficiary's **IFHRMS / Employee Number** (for example, **42020645781**).

Step 2: Click the **Search (🔍)** button next to the field (both are highlighted in red in Figure 5.2).

Step 3: The system fetches the employee's records and automatically fills in the employee-related fields (see Figure 5.3).

Step 4: The IFHRMS / Employee Number field becomes read-only after a successful search.

5.3 Auto-filled Details

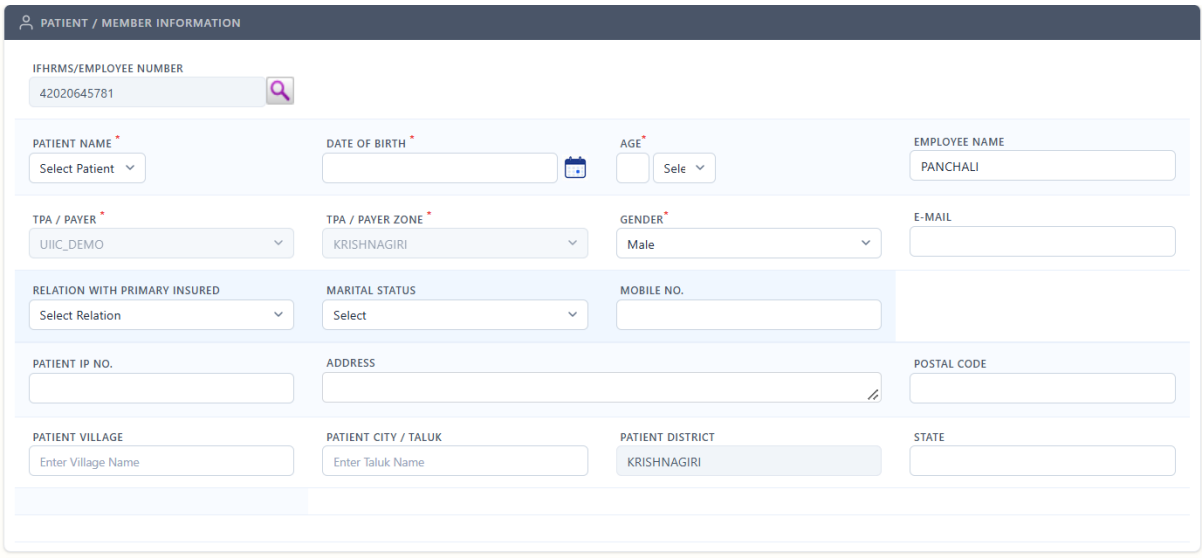

Figure 5.3: Patient / Member Information after the search – employee details filled automatically

After the search, the following fields are filled automatically from the employee's records. Auto-filled fields shown in grey cannot be edited.

Field Name	Filled Value (Example)	Editable	Remarks
IFHRMS / Employee Number	42020645781	No	Locked after a successful search.
Employee Name	PANCHALI	–	Name of the employee (primary insured).
TPA / Payer	UIIC_DEMO	No	Insurance company / TPA linked to the employee.
TPA / Payer Zone	KRISHNAGIRI	No	Payer zone linked to the employee.
Patient District	KRISHNAGIRI	No	District linked to the employee's record.

Note: If the details are not filled in after the search, check that the IFHRMS / Employee Number is correct and that the right Health Scheme is selected, then search again.

5.4 Complete the Patient / Member Information

All fields that are not auto-filled must be entered by the DMO. After the auto-fill, enter or select the remaining patient details as follows.

Step 1: From the **Patient Name** dropdown (Select Patient), select the patient for whom treatment is requested.

Step 2: Enter or confirm the **Date of Birth** using the calendar icon, and the **Age**.

Step 3: Select the **Gender**.

Step 4: Select the **Relation with Primary Insured** and the **Marital Status**.

Step 5: Enter the contact details: **Mobile No.** and **E-mail**.

Step 6: Enter the **Patient IP No.**, **Address**, **Postal Code**, **Patient Village**, **Patient City / Taluk**, and **State**.

5.5 Patient / Member Information – Field Descriptions

Field Name	Description	Mandatory	Example
IFHRMS / Employee Number	IFHRMS (Integrated Financial and Human Resource Management System) number or Employee Number of the primary insured. Used to search the employee's records.	Yes	42020645781
Patient Name	Dropdown to select the patient from the members linked to the employee number.	Yes	Select Patient
Date of Birth	Patient's date of birth. Use the calendar icon to pick the date.	Yes	–
Age	Patient's age, with a unit selector beside it.	Yes	–
Employee Name	Name of the employee (primary insured). Auto-filled.	–	PANCHALI
TPA / Payer	TPA / insurance company. Auto-filled, read-only.	Yes	UIIC_DEMO
TPA / Payer Zone	Payer zone. Auto-filled, read-only.	Yes	KRISHNAGIRI
Gender	Patient's gender.	Yes	Male
E-mail	Patient's e-mail address.	No	–
Relation with Primary Insured	Patient's relationship to the employee (primary insured).	No	Select Relation
Marital Status	Patient's marital status.	No	Select
Mobile No.	Patient's mobile number.	No	–
Patient IP No.	In-patient number given by the hospital.	No	–
Address	Patient's residential address.	No	–
Postal Code	PIN code of the patient's address.	No	–
Patient Village	Patient's village name.	No	–
Patient City / Taluk	Patient's city or taluk name.	No	–

Field Name	Description	Mandatory	Example
Patient District	Patient's district. Auto-filled, read-only.	–	KRISHNAGIRI
State	Patient's state.	No	–

6. Patient Medical Details

After the Patient / Member Information is complete, the DMO moves to the Patient Medical Details section. Here the DMO enters the chief complaint, the patient's medical history, the diagnosis, and the plan of treatment.

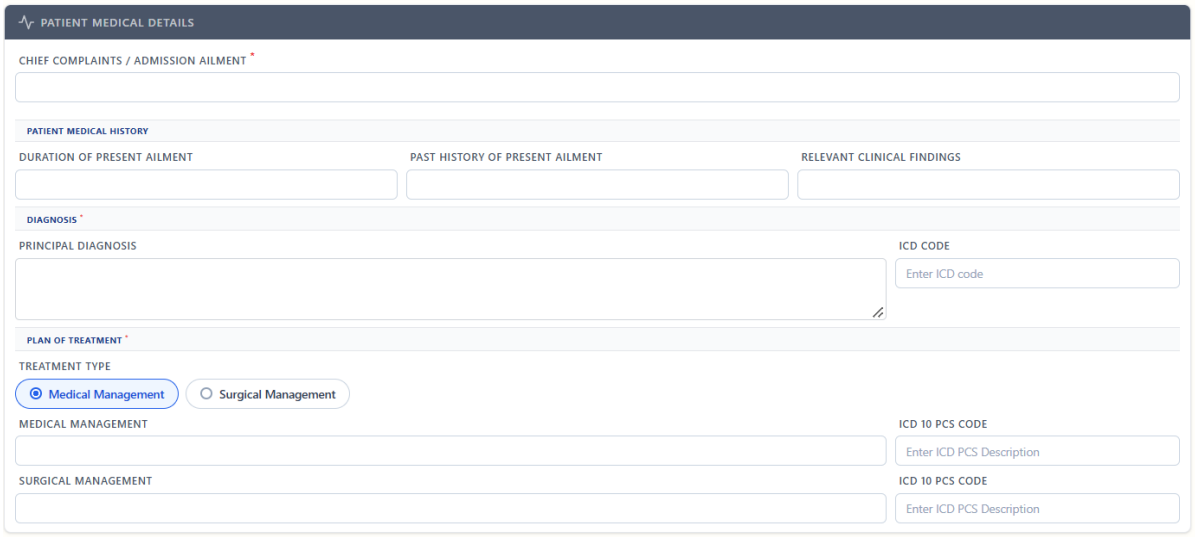

Figure 6.1: Patient Medical Details section

6.1 Steps to Enter the Patient Medical Details

Step 1: In **Chief Complaints / Admission Ailment**, enter the main complaint or the reason for admission.

Step 2: Under **Patient Medical History**, enter the **Duration of Present Ailment**, the **Past History of Present Ailment**, and the **Relevant Clinical Findings**.

Step 3: Under **Diagnosis**, enter the **Principal Diagnosis** and its **ICD Code**.

Step 4: Under **Plan of Treatment**, select the **Treatment Type** using the radio button: **Medical Management** or **Surgical Management**.

Step 5: If **Medical Management** is selected, enter the treatment details in the **Medical Management** field and the related **ICD 10 PCS Code**.

Step 6: If **Surgical Management** is selected, enter the procedure details in the **Surgical Management** field and the related **ICD 10 PCS Code**.

> **Note:** Only one treatment type can be selected at a time. Chief Complaints / Admission Ailment, Diagnosis, and Plan of Treatment are mandatory (marked with *).

6.2 Treatment Type Options

Option	When to Select
Medical Management	Select when the patient will be treated with medicines or other non-surgical treatment.
Surgical Management	Select when the patient requires a surgery or surgical procedure.

6.3 Field Descriptions

Field Name	Description	Mandatory	Sub-section
Chief Complaints / Admission Ailment	Main complaint of the patient or the reason for admission.	Yes	–
Duration of Present Ailment	How long the patient has had the current ailment.	No	Medical History
Past History of Present Ailment	Previous history or earlier treatment related to the current ailment.	No	Medical History
Relevant Clinical Findings	Important findings from the clinical examination.	No	Medical History
Principal Diagnosis	Main diagnosis of the patient's condition.	Yes	Diagnosis
ICD Code	International Classification of Diseases (ICD) code for the principal diagnosis.	Yes	Diagnosis
Treatment Type	Radio button to choose Medical Management or Surgical Management.	Yes	Plan of Treatment
Medical Management	Details of the medical (non-surgical) treatment planned.	If Medical selected	Plan of Treatment
ICD 10 PCS Code (Medical)	ICD-10 Procedure Coding System code or description for the medical treatment.	If Medical selected	Plan of Treatment
Surgical Management	Details of the surgery or procedure planned.	If Surgical selected	Plan of Treatment
ICD 10 PCS Code (Surgical)	ICD-10 Procedure Coding System code or description for the surgical procedure.	If Surgical selected	Plan of Treatment

7. Hospital Details

After the Patient Medical Details, the DMO fills in the Hospital Details section. This section records the admission and discharge dates, room and ward details, the request type, the expected length of stay, and the treating doctors.

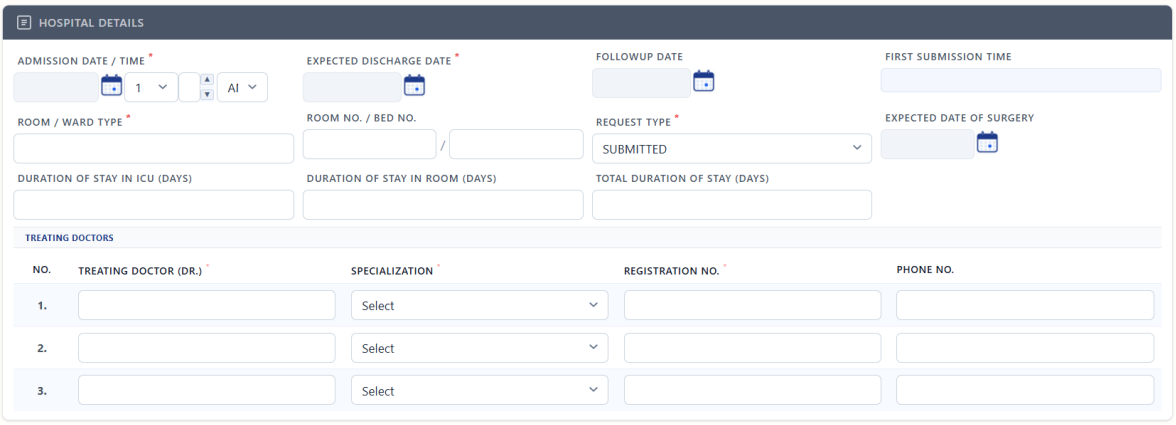

Figure 7.1: Hospital Details section

7.1 Steps to Enter the Hospital Details

Step 1: In **Admission Date / Time**, click the calendar icon to select the admission date, then select the hour, enter the minutes, and choose **AM** or **PM**.

Step 2: In **Expected Discharge Date**, click the calendar icon and select the expected date of discharge.

Step 3: If a follow-up visit is planned, select the **Followup Date** using the calendar icon.

Step 4: Enter the **Room / Ward Type**, then the **Room No.** and **Bed No.**.

Step 5: Check the **Request Type**. It is set to **SUBMITTED** by default.

Step 6: If surgery is planned, select the **Expected Date of Surgery** using the calendar icon.

Step 7: Enter the **Duration of Stay in ICU (Days)**, the **Duration of Stay in Room (Days)**, and the **Total Duration of Stay (Days)**.

> **Note:** First Submission Time is filled in by the system and cannot be edited.

7.2 Entering the Treating Doctor Details

The Treating Doctors table allows up to three doctors to be entered. At least one treating doctor is required.

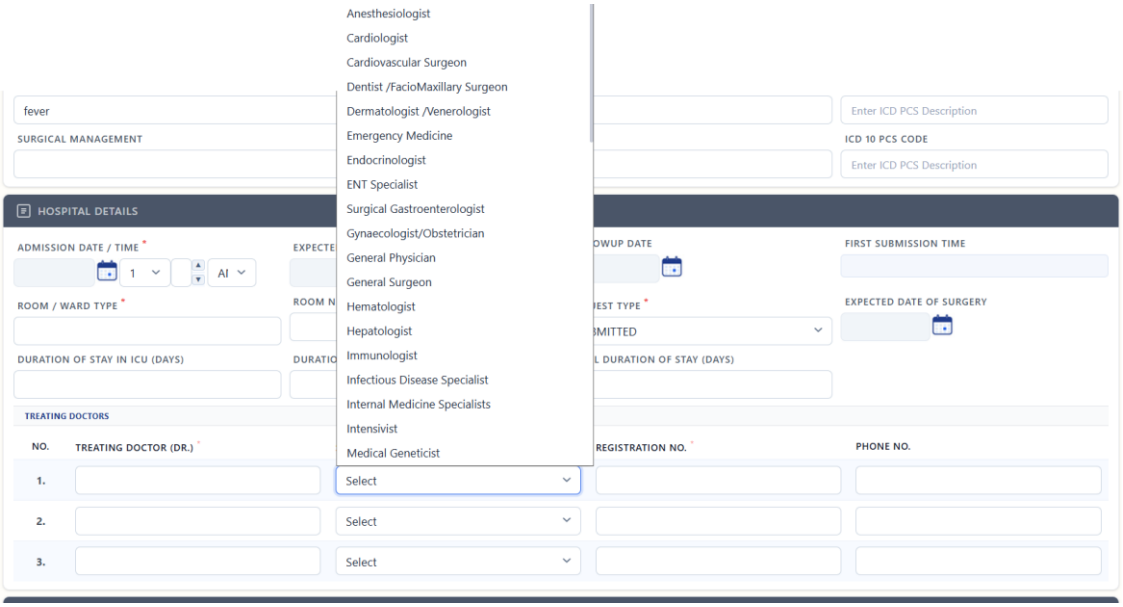

Figure 7.2: Selecting the doctor's specialization from the dropdown

Step 1: In row **1**, enter the name of the doctor in **Treating Doctor (Dr.)**.

Step 2: Click the **Specialization** dropdown and select the doctor's specialization from the list (see Figure 7.2). Scroll down the list to see more options.

Step 3: Enter the doctor's medical **Registration No.**.

Step 4: Optionally, enter the doctor's **Phone No.**.

Step 5: If more doctors are treating the patient, repeat these steps in rows **2** and **3**.

7.3 Hospital Details – Field Descriptions

Field Name	Description	Mandatory	Example
Admission Date / Time	Date and time of the patient's admission. Includes a calendar, hour, minutes, and AM/PM selector.	Yes	–
Expected Discharge Date	Date on which the patient is expected to be discharged.	Yes	–
Followup Date	Date of the planned follow-up visit, if any.	No	–
First Submission Time	Date and time when the request was first submitted. System generated, read-only.	–	–
Room / Ward Type	Type of room or ward allotted to the patient.	Yes	–
Room No. / Bed No.	Room number and bed number allotted to the patient.	No	–
Request Type	Type of the PreAuth request. Default value is SUBMITTED.	Yes	SUBMITTED
Expected Date of Surgery	Planned date of surgery, if surgical management is selected.	No	–
Duration of Stay in ICU (Days)	Expected number of days in the ICU.	No	–
Duration of Stay in Room (Days)	Expected number of days in the room or ward.	No	–
Total Duration of Stay (Days)	Total expected length of stay in the hospital.	No	–

7.4 Treating Doctors – Field Descriptions

Field Name	Description	Mandatory	Example
No.	Row number of the treating doctor (1 to 3).	–	1
Treating Doctor (Dr.)	Full name of the treating doctor.	Yes	–
Specialization	Doctor's specialization, selected from the dropdown list.	Yes	General Physician
Registration No.	Doctor's medical council registration number.	Yes	–
Phone No.	Doctor's contact number.	No	–

7.5 Specialization Options

The Specialization dropdown includes the following options. The list continues when you scroll down.

Specialization	Specialization
Anesthesiologist	General Physician
Cardiologist	General Surgeon
Cardiovascular Surgeon	Hematologist
Dentist / FacioMaxillary Surgeon	Hepatologist
Dermatologist / Venerologist	Immunologist
Emergency Medicine	Infectious Disease Specialist
Endocrinologist	Internal Medicine Specialists
ENT Specialist	Intensivist
Surgical Gastroenterologist	Medical Geneticist
Gynaecologist / Obstetrician	(more options on scrolling)

8. Treatment / Procedure Code & Package

In this section the DMO selects the treatment or procedure package for the patient. The package field works as a search box: when the DMO types at least three characters of the procedure code or name, the matching packages are listed for selection.

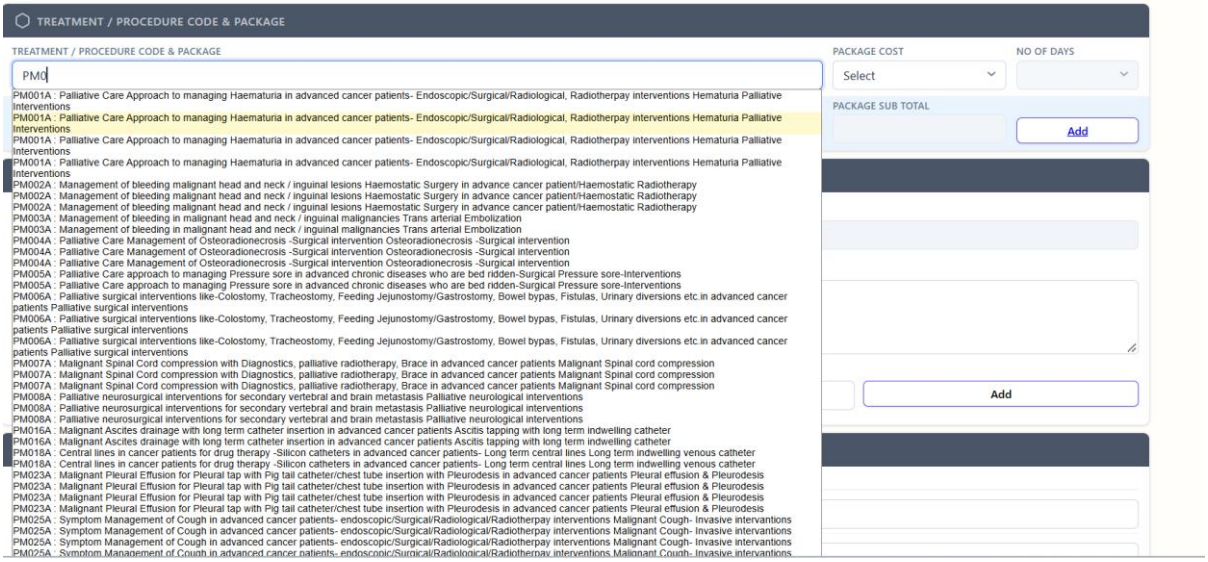

Figure 8.1: Typing three characters (for example, PM0) lists the matching packages

8.1 Search and Select the Package

Step 1: Click in the **Treatment / Procedure Code & Package** field.

Step 2: Type at least **three characters** of the procedure code or procedure name (for example, **PM0**).

Step 3: The system displays a list of matching packages, each with its code and description (for example, **PM001A : Palliative Care Approach to managing Haematuria in advanced cancer patients…**).

Step 4: Scroll through the list and click the required package to select it. The highlighted row shows the package under the mouse pointer.

> **Tip:** Typing more characters of the code (for example, PM001) narrows the list and makes it easier to find the correct package. Always check the package code before selecting it.

8.2 Select the Package Cost and Add the Package

After the package is selected, the package name appears in the field and the cost of that package is loaded into the Package Cost dropdown. The Stratification and Implant options are also shown.

Figure 8.2: Package selected – cost shown in the Package Cost dropdown

Step 1: Check that the selected package name is shown in the **Treatment / Procedure Code & Package** field (for example, **PM002A : Management of bleeding malignant head and neck / inguinal lesions…**).

Step 2: Click the **Package Cost** dropdown (highlighted in red in Figure 8.2).

Step 3: Select the cost displayed for the package (for example, **70417**).

Step 4: If applicable, select the **No of Days**.

Step 5: If stratification applies, tick the **Stratification** checkbox and select the option from the dropdown. The **Stratification Cost** is then shown.

Step 6: If an implant is used, tick the **Implant** checkbox and select the implant from the dropdown. The **Implant Cost** is then shown.

Step 7: Check the amount in **Package Sub Total**. It is calculated by the system (for example, **70417**).

Step 8: Click the **Add** button to add the package to the PreAuth request.

Step 9: To add another package, see Section 8.3.

> **Note:** The Stratification and Implant dropdowns show “Tick to add” and stay disabled until their checkbox is ticked. Their cost fields show 0 when not used.

8.3 Adding More Packages

If the patient needs more than one package, the DMO can add more packages. Each time Add is clicked, a new blank package row appears below the current one.

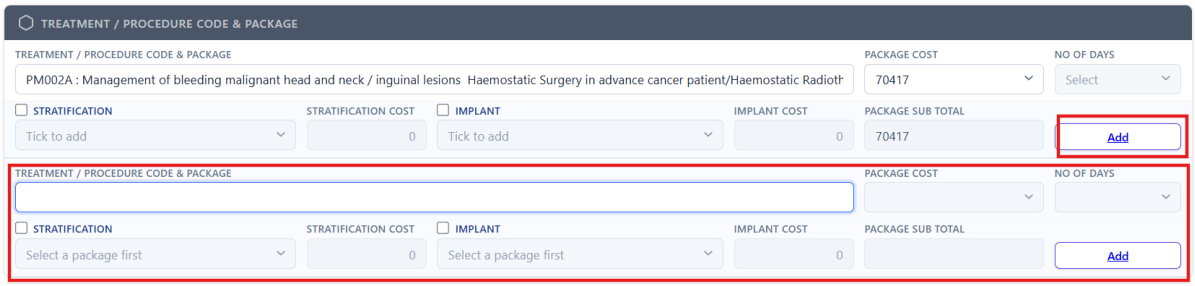

Figure 8.3: Clicking Add opens a new package row below (highlighted in red)

Step 1: After filling in the first package, click the **Add** button on the right side of that row.

Step 2: A new, blank **Treatment / Procedure Code & Package** row appears below.

Step 3: In the new row, search and select the next package as described in Section 8.1.

Step 4: Select the **Package Cost** and the other details as described in Section 8.2.

Step 5: Click the **Add** button of the new row to add it. Repeat for each additional package.

> **Note:** In a new row, the Stratification and Implant dropdowns show “Select a package first”. They can be used only after a package is selected in that row.

8.4 Field Descriptions

Field Name	Description	Entry Type
Treatment / Procedure Code & Package	Search field for the treatment or procedure package. Matching packages appear after typing at least three characters.	Type and select
Package Cost	Cost of the selected package. Loaded automatically after the package is selected; the DMO selects it from the dropdown.	Dropdown
No of Days	Number of days applicable for the package.	Dropdown
Stratification	Checkbox to apply a stratification to the package. When ticked, the stratification dropdown is enabled.	Checkbox and dropdown
Stratification Cost	Cost of the selected stratification. Shows 0 when not used.	System generated
Implant	Checkbox to add an implant used in the procedure. When ticked, the implant dropdown is enabled.	Checkbox and dropdown
Implant Cost	Cost of the selected implant. Shows 0 when not used.	System generated
Package Sub Total	Total amount for the selected package. Displayed by the system, read-only.	System generated
Add	Adds the selected package to the PreAuth request and opens a new blank row for the next package.	Button

8.5 Package Code Format

Each package in the list is shown in the format CODE: Description. For example:

Package Code	Package Description (example)
PM001A	Palliative Care Approach to managing Haematuria in advanced cancer patients – Endoscopic / Surgical / Radiological, Radiotherapy interventions
PM002A	Management of bleeding malignant head and neck / inguinal lesions – Haemostatic Surgery / Haemostatic Radiotherapy
PM005A	Palliative Care approach to managing Pressure sore in advanced chronic diseases who are bed ridden – Surgical
PM023A	Malignant Pleural Effusion for Pleural tap with Pig tail catheter / chest tube insertion with Pleurodesis in advanced cancer patients

9. Treatment Cost & Consent

After the packages are add, the DMO moves to the Treatment Cost & Consent section. The treatment cost is calculat by the system from the selected packages and package costs, and is shown in figures and in words. The DMO can also enter consent and counseling remarks and link an earlier PreAuth.

Figure 9.1: Treatment Cost & Consent – cost filled automatically (highlighted in red)

9.1 Steps to Complete the Treatment Cost & Consent

Step 1: Check the **Treatment Cost**. It is filled automatically from the selected package(s) and package cost (for example, **70417**).

Step 2: Check the **Cost (In Words)**. It shows the same amount in words (for example, **Seventy Thousand, Four Hundred Seventeen Rupees Only**).

Step 3: If the case is high risk, enter the details in **High Risk Consent Remarks**.

Step 4: Enter the remarks of the counseling doctor in **Counseling Doctor Remarks**.

Step 5: If this request is related to an earlier PreAuth, enter the earlier reference number in **Earlier Related PreAuth Ref. No.** and click **Add**.

> **Note:** Treatment Cost and Cost (In Words) cannot be edited. If the cost is wrong, go back to Section 8 and check the selected package and package cost.

9.2 Field Descriptions

Field Name	Description	Mandatory	Example
Treatment Cost	Total treatment cost, calculated from the selected package(s). System generated, read-only.	Yes	70417
Cost (In Words)	Treatment cost written in words. System generated, read-only.	–	Amount in words
High Risk Consent Remarks	Remarks about the high-risk consent taken from the patient or attendant, if the case is high risk.	No	–
Counseling Doctor Remarks	Remarks of the doctor who counseled the patient about the treatment.	No	–
Earlier Related PreAuth Ref. No.	Reference number of an earlier PreAuth related to this case.	No	15H_1967481824156
Add	Adds the entered earlier PreAuth reference number to the request.	–	–

10. Upload Files / Reports / Scanned Documents

This is the last section of the PreAuth Request form. Here the DMO attaches the supporting documents needed to review the pre-authorization request, such as investigation reports, medical records, and scanned copies. Clear and complete documents help the request to be reviewed without delay.

The documents are grouped into five categories. Each file has a Remarks box where the DMO can briefly describe the document.

10.1 Document Categories and File Limits

Category	Upload Slots	Allowed File Types	Max. Size per File
Files / Reports	1 to 5	PDF, JPEG, JPG	Less than 5 MB
Medical Information	6 to 10	PDF, JPEG, JPG	Less than 5 MB
Additional Documents	11 to 15	PDF, JPEG, JPG	Less than 5 MB
Further Documents	16 to 20	PDF, JPEG, JPG	Less than 5 MB
Video Files	1 to 5	AVI, FLV, WMV, MP4, MKV, MPG, 3GP	Less than 15 MB

Important: Files in any other format, or larger than the size limit, cannot be uploaded. Compress or convert the file before uploading if needed.

10.2 Upload Section Screen

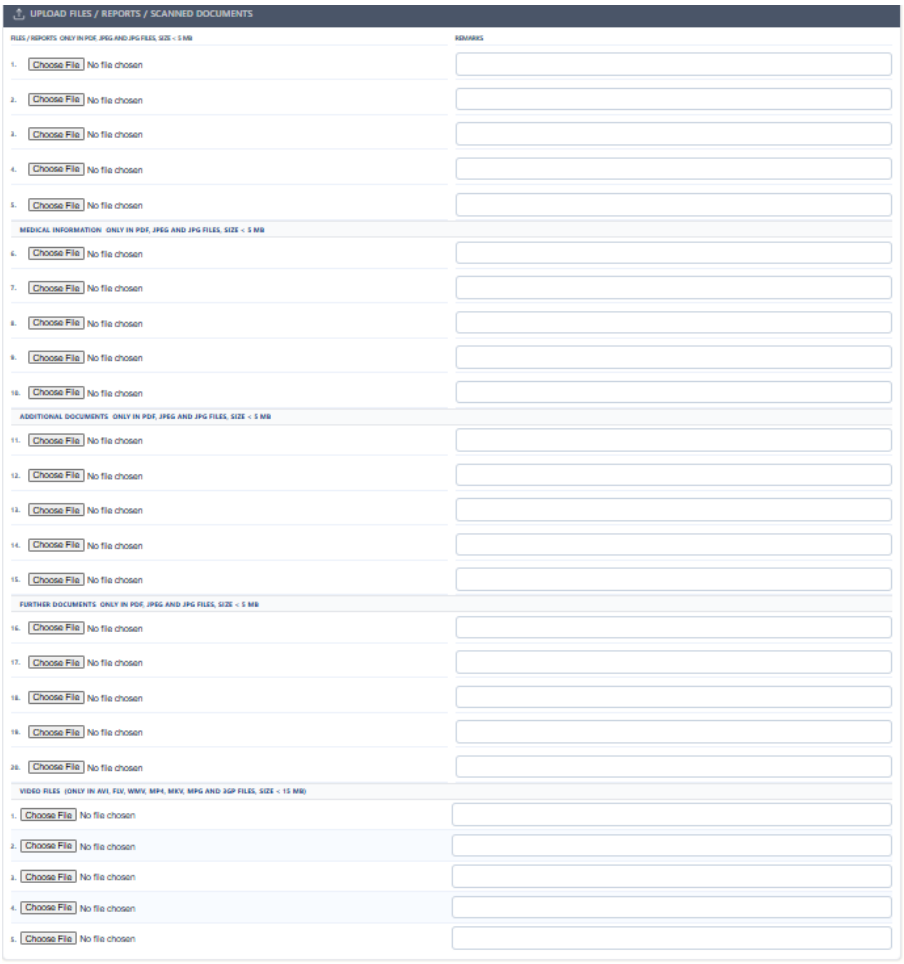

Figure 10.1: Upload Files / Reports / Scanned Documents section

10.3 Steps to Upload a Document

Step 1: Go to the **Upload Files / Reports / Scanned Documents** section at the end of the PreAuth Request form.

Step 2: Find the correct category for the document (for example, **Medical Information** for medical records).

Step 3: Click the **Choose File** button in an empty slot of that category.

Step 4: In the file window, browse to the document on your computer, select it, and click **Open**.

Step 5: Check that the file name now appears next to the Choose File button, in place of **No file chosen**.

Step 6: In the **Remarks** box beside the file, enter a short description of the document (for example, **CT scan report dated 08/10/2026**).

Step 7: Repeat steps 3 to 6 for each document to be attached.

Step 8: For video files, use the **Video Files** slots and follow the same steps.

Step 9: After all documents are attached, review the whole PreAuth Request form and submit it (see Section 11).

10.4 Guidelines for Good Documents

- Upload clear, readable, and complete scans. Blurred or cut-off documents may lead to queries or delays.
- Make sure each document belongs to the patient named in the PreAuth request.
- Upload each document only once, in the most suitable category.
- Use the Remarks box to describe each file so the reviewer can identify it quickly.
- Combine multi-page reports into a single PDF where possible.
- Check the file type and size before uploading: PDF, JPEG or JPG under 5 MB for documents, and supported video formats under 15 MB for videos.

10.5 Field Descriptions

Field Name	Description	Mandatory
Files / Reports (1–5)	Upload slots for general files and reports related to the case.	As required for the case
Medical Information (6–10)	Upload slots for medical records, such as investigation reports and clinical notes.	As required for the case
Additional Documents (11–15)	Upload slots for any additional supporting documents.	No
Further Documents (16–20)	Upload slots for any further documents, if more space is needed.	No
Video Files (1–5)	Upload slots for video recordings related to the case.	No
Remarks	Short description of the uploaded file.	No

11. Submitting the PreAuth Request

After all mandatory details are entered and the supporting documents are attached, the DMO submits the PreAuth request using the Submit button at the bottom of the form.

Figure 11.1: Submit and Reset buttons at the bottom of the PreAuth Request form

11.1 Checklist Before Submitting

Before clicking Submit, check that the following details are complete and correct:

- **Health Scheme** is selected (Section 5.1).
- **Patient / Member Information** is fetched and all mandatory fields are filled in (Sections 5.2 to 5.4).
- **Patient Medical Details**, including Chief Complaints, Diagnosis, and Plan of Treatment, are entered (Section 6).
- **Hospital Details** and at least one **Treating Doctor** are entered (Section 7).
- The correct **Treatment / Procedure Package** and **Package Cost** are selected and added (Section 8).
- The **Treatment Cost** shown is correct (Section 9).
- All required **documents** are attached in the correct category (Section 10).

11.2 Steps to Submit

Step 1: Scroll to the bottom of the PreAuth Request form.

Step 2: Review all the sections once more using the checklist in Section 11.1.

Step 3: Click the ✓ **Submit** button (highlighted in red in Figure 11.1).

Step 4: The PreAuth request is submitted, the system generates the **Ref ID**, and the **Hospital TPA Response** page opens (see Section 11.4).

Step 5: Note the Ref ID. It can be used to search for and track the request in the **Preauth Inbox** (Section 3).

> **Note:** If any mandatory field is missing, the form is not submitted. Fill in the missing fields marked with * and click Submit again.

11.3 Button Descriptions

Button	Description
✓ Submit	Submits the completed PreAuth request for review.
Reset	Clears the details entered in the form so that the DMO can start again. Use with care, as the entered data will be lost.

> **Caution:** Do not click Reset after filling in the form unless you want to clear all the entered details.

11.4 After Submission – Ref ID Generated

After a successful submission, the system generates a unique Ref ID for the case and opens the Hospital TPA Response page. The breadcrumb shows PREAUTH › Hospital TPA Response, and the generated Ref ID is displayed beside it.

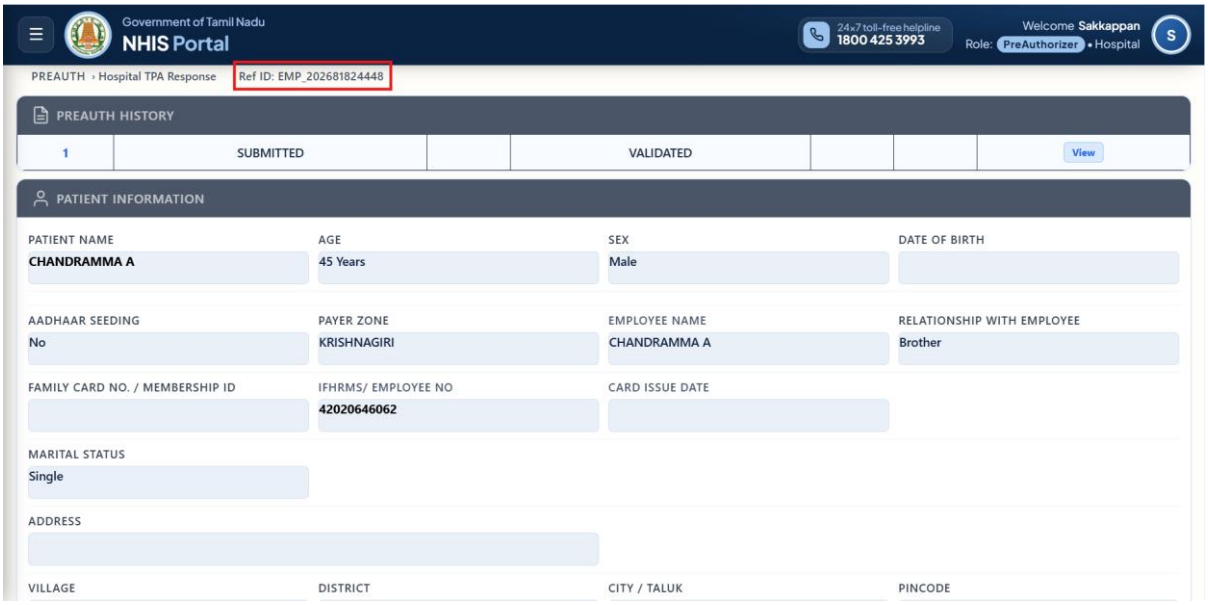

Figure 11.2: Hospital TPA Response page showing the generated Ref ID (highlighted in red)

Step 1: Check the **Ref ID** shown at the top of the page (for example, **EMP_202681824448**).

Step 2: Note down the Ref ID for future reference. Use it to search for the case in the Preauth Inbox (Section 3).

Step 3: Check the **PreAuth History** section, which shows the status of the request (for example, **SUBMITTED** and **VALIDATED**).

Step 4: Click **View** in the PreAuth History row to see the details of that stage.

Step 5: Review the **Patient Information** section to confirm that the submitted details are correct.

> **Note:** The details on this page are read-only. They show the information submitted in the PreAuth request.

11.5 Hospital TPA Response – Field Descriptions

Field / Section	Description	Example
Ref ID	Unique reference number generated by the system for the submitted PreAuth case.	EMP_202681824448
PreAuth History	Shows each stage of the request with its status, and a View button for the details.	1 – SUBMITTED – VALIDATED
Patient Name	Name of the patient.	CHANDRAMMA A
Age	Age of the patient.	45 Years
Sex	Gender of the patient.	Male
Date of Birth	Patient's date of birth.	–
Aadhaar Seeding	Shows whether the patient's Aadhaar is linked (Yes / No).	No
Payer Zone	Payer zone linked to the employee.	KRISHNAGIRI
Employee Name	Name of the employee (primary insured).	CHANDRAMMA A
Relationship with Employee	Patient's relationship to the employee.	Brother
Family Card No. / Membership ID	Family card or membership ID of the beneficiary.	–
IFHRMS / Employee No	IFHRMS or employee number used for the request.	42020646062
Card Issue Date	Date the card was issued.	–
Marital Status	Patient's marital status.	Single
Address, Village, District, City / Taluk, Pincode	Patient's address details as submitted.	–

12. Approver – Login and Preauth Inbox

After the DMO submits the PreAuth request, the case moves to the Approver for review. The Approver belongs to the TPA (Third Party Administrator) and reviews the validated PreAuth cases.

12.1 Approver Login

The Approver logs in from the same NHIS Portal login page used by the DMO (see Section 2).

Step 1: Open the NHIS Portal login page.

Step 2: Enter the Approver's valid **User ID** and **Password**.

Step 3: Enter the **Captcha** exactly as shown. Click Refresh (↻) if it is not clear.

Step 4: Click **Log in**.

Step 5: The **Preauth Inbox** opens as the Approver's landing page.

12.2 Approver Landing Page – Preauth Inbox

The Approver's Preauth Inbox lists the PreAuth cases submitted by hospitals. The header shows Welcome Approver and the role Approver • TPA. Cases submitted by the DMO appear here with the status VALIDATED.

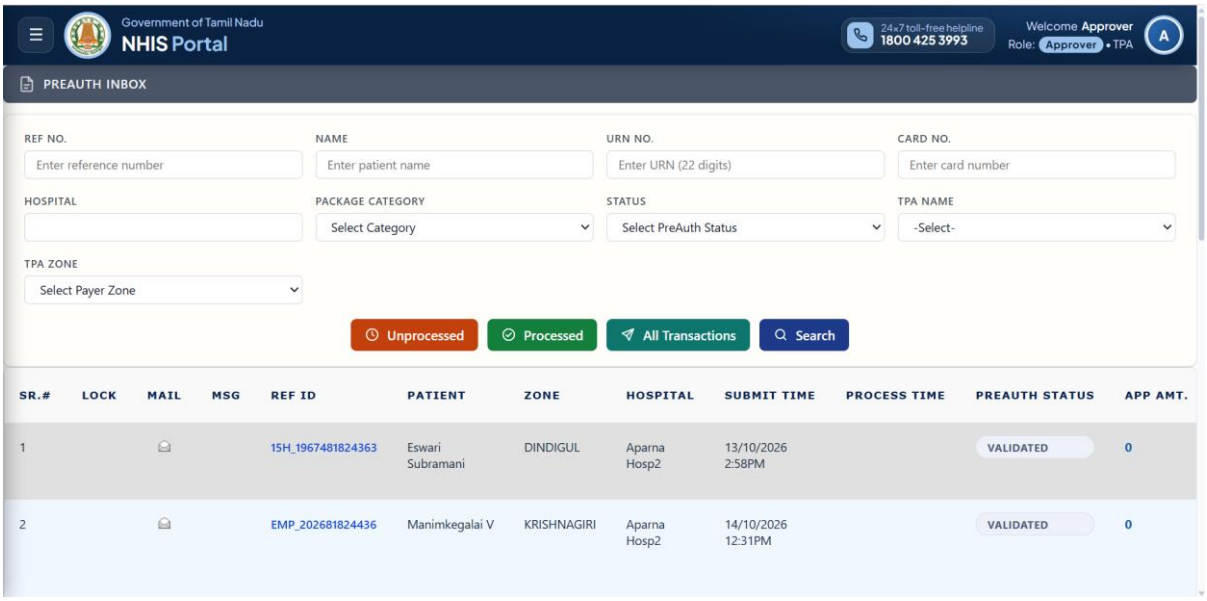

Figure 12.1: Approver Preauth Inbox – landing page after login

12.3 Search Filters

Field Name	Description	Example
Ref No.	PreAuth reference number of the case.	EMP_202681824436
Name	Name of the patient.	Manimkegalai V
URN No.	Unique Reference Number of the beneficiary (22 digits).	22-digit number
Card No.	Insurance card number of the beneficiary.	–
Hospital	Name of the hospital that submitted the case.	Aparna Hosp2
Package Category	Dropdown to filter cases by package category.	Select Category
Status	Dropdown to filter cases by PreAuth status.	VALIDATED
TPA Name	Dropdown to filter cases by TPA.	-Select-
TPA Zone	Dropdown to filter cases by payer zone.	KRISHNAGIRI

12.4 Action Buttons

Button	Description
Unprocessed	Shows cases that are waiting for the Approver's action.
Processed	Shows cases that the Approver has already processed.
All Transactions	Shows all cases, both processed and unprocessed.
Search	Searches for cases matching the values entered in the search filters.

12.5 Steps to Find a Case

Step 1: Click **Unprocessed** to see the cases waiting for approval.

Step 2: To find a specific case, enter one or more search filters, such as **Ref No.**, **Name**, **Hospital**, or **TPA Zone**.

Step 3: Click **Search**.

Step 4: In the results list, click the **Ref ID** of the case to open it for review.

12.6 Results List – Column Descriptions

Column	Description	Example
Sr.#	Serial number of the case in the list.	1
Lock	Shows the lock status of the case. A locked case can be released using the Unlock button (Section 12.16).	–
Mail	Envelope icon to view or send mail related to the case.	Envelope icon
Msg	Messages related to the case.	–
Ref ID	PreAuth reference number shown as a hyperlink. Click it to open the case for review (Section 12.7).	EMP_202681824436
Patient	Name of the patient.	Manimkegalai V
Zone	Payer zone of the case.	KRISHNAGIRI
Hospital	Hospital that submitted the case.	Aparna Hosp2
Submit Time	Date and time when the hospital submitted the case.	14/10/2026 12:31PM
Process Time	Date and time when the case was processed. Blank until processed.	–
Preauth Status	Current status of the PreAuth request.	VALIDATED
App Amt.	Approved amount. Shows 0 until the case is approved.	0
Aging / Total Aging	Time taken at the current stage and in total, shown as days followed by hours:minutes:seconds (see Section 12.20).	0 01:46:29

12.7 Opening a Case for Review

To review a PreAuth request, the Approver searches for the case and opens it by clicking its Ref ID hyperlink. The full case details then open for verification.

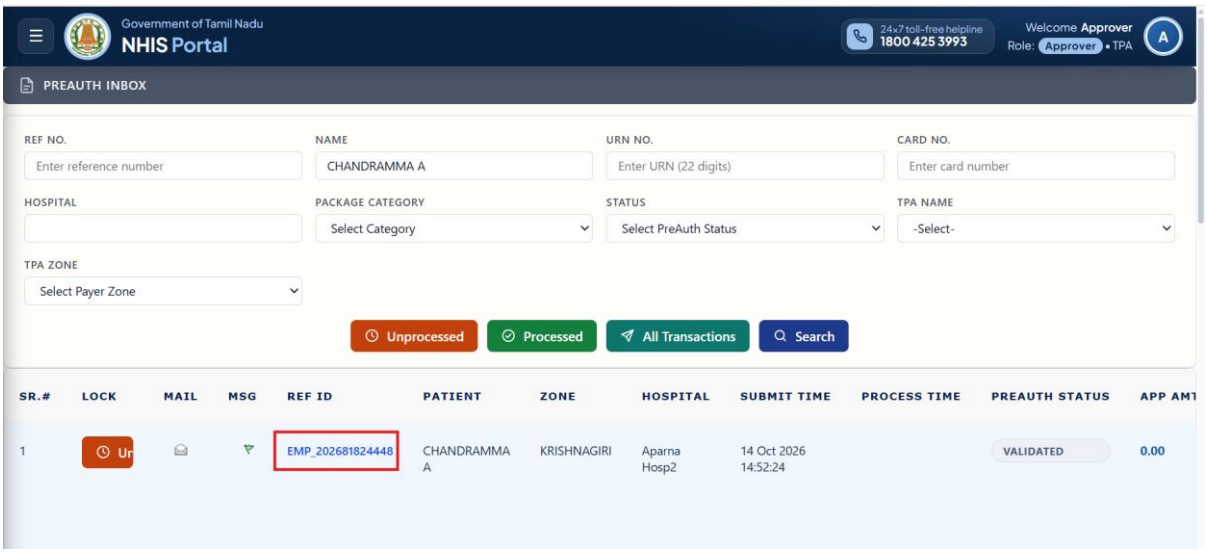

Figure 12.2: Searching by patient name and clicking the Ref ID hyperlink (highlighted in red)

Step 1: In the search filters, enter the case details, for example the patient's **Name** (**CHANDRAMMA A**) or the **Ref No.**.

Step 2: Click **Search**. The matching case is shown in the results list with the status **VALIDATED**.

Step 3: Click the **Ref ID** hyperlink of the case (for example, **EMP_202681824448**).

Step 4: The **TPA Details** page opens, showing all the details submitted by the hospital (see Section 12.8).

Step 5: Verify all the details of the case: patient and member information, medical details, hospital and treating doctor details, the selected package and cost, and the attached documents.

> **Tip:** Searching by Ref No. is the quickest way to find a specific case. The Ref ID is shared by the hospital after submission (see Section 11.4).

12.8 Case Review Screen – TPA Details

When the Approver clicks the Ref ID, the TPA Details page opens. The breadcrumb shows PREAUTH › TPA Details along with the Ref ID of the case. The top of the page shows the PreAuth History of the case, followed by the Patient Information.

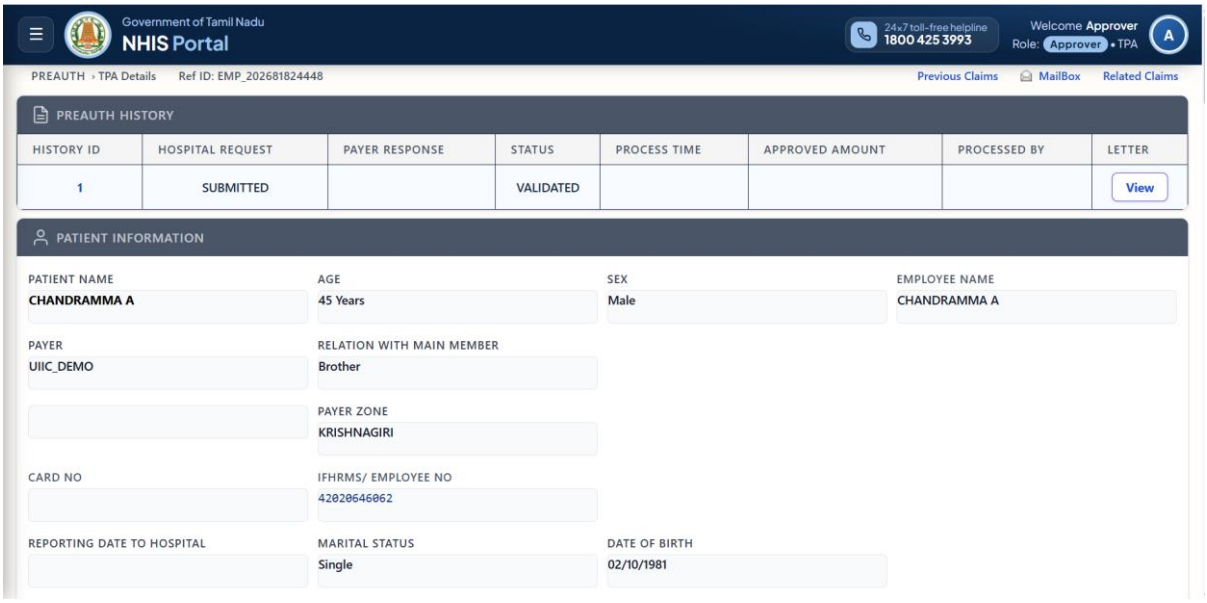

Figure 12.3: TPA Details page – PreAuth History and Patient Information

12.9 Quick Links

Quick links at the top right of the page help the Approver check related information before deciding on the case.

Link	Description
Previous Claims	Shows the earlier claims of the beneficiary.
MailBox	Opens the mail communication related to the case.
Related Claims	Shows claims related to the current case.

> **Check:** While reviewing, confirm that the patient's name, age, relation, and employee number match the attached documents. Any mismatch should be raised before the case is approved.

12.10 PreAuth History

The PreAuth History table shows every stage of the case, one row per stage, with its current status.

Column	Description	Example
History ID	Serial number of the stage in the case history.	1
Hospital Request	Type of request sent by the hospital.	SUBMITTED
Payer Response	Response given by the payer / TPA for that stage. Blank until a response is given.	–
Status	Current status of that stage.	VALIDATED
Process Time	Date and time when the stage was processed.	–
Approved Amount	Amount approved at that stage.	–
Processed By	User who processed that stage.	–
Letter	View button to open the letter or details of that stage.	View

Step 1: Check the latest row of the **PreAuth History** to see the current stage and status of the case.

Step 2: Click **View** in the **Letter** column to open the details of that stage.

12.11 Patient Information (Read-only)

Below the PreAuth History, the read-only Patient Information submitted by the hospital is shown.

Field Name	Description	Example
Patient Name	Name of the patient.	CHANDRAMMA A
Age	Age of the patient.	45 Years
Sex	Gender of the patient.	Male
Employee Name	Name of the employee (main member).	CHANDRAMMA A
Payer	Insurance company / TPA.	UIIC_DEMO
Relation with Main Member	Patient's relationship to the main member.	Brother
Payer Zone	Payer zone of the case.	KRISHNAGIRI
Card No	Insurance card number of the beneficiary.	–
IFHRMS / Employee No	IFHRMS or employee number of the main member.	42020646062
Reporting Date to Hospital	Date the patient reported to the hospital.	–
Marital Status	Patient's marital status.	Single
Date of Birth	Patient's date of birth.	02/10/1981

12.12 Payer / TPA Approved Details

After reviewing all the case details, the Approver records the decision in the Payer / TPA Approved Details section at the bottom of the TPA Details page. Here the Approver enters the approved amount, selects the status, and adds remarks.

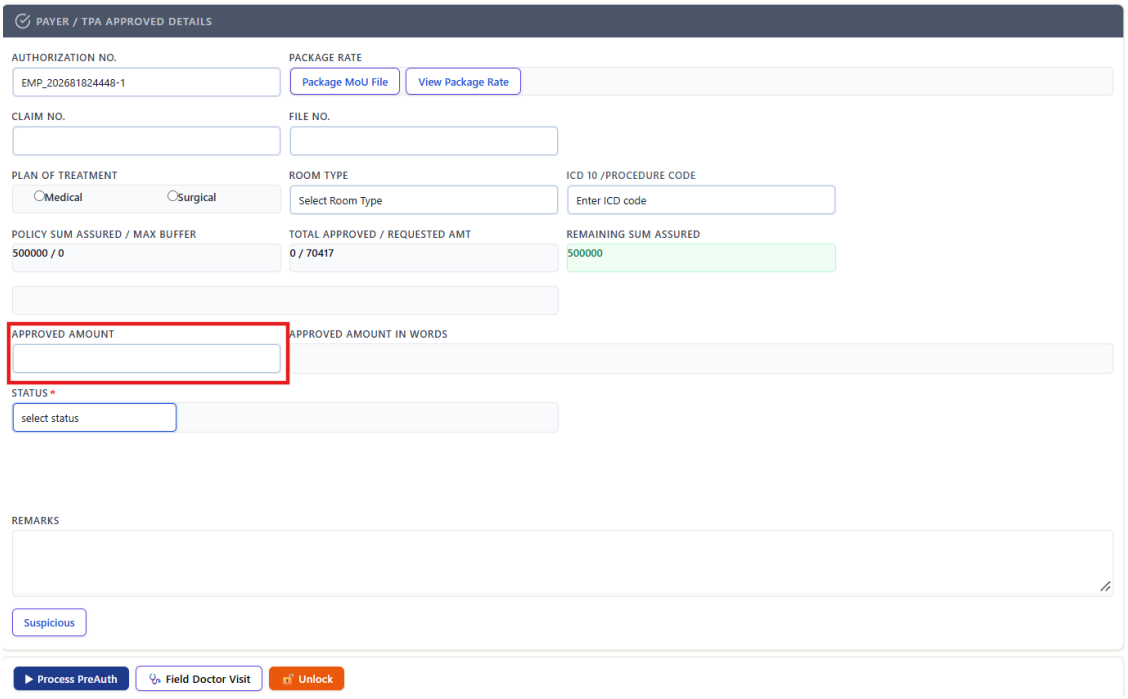

Figure 12.4: Payer / TPA Approved Details section (Approved Amount highlighted in red)

12.13 Steps to Process the PreAuth

Step 1: Check the **Authorization No.** generated for the case (for example, **EMP_202681824448-1**).

Step 2: If needed, click **Package MoU File** or **View Package Rate** to check the agreed package rate.

Step 3: Enter the **Claim No.** and **File No.**, if applicable.

Step 4: Check or select the **Plan of Treatment** (Medical or Surgical), the **Room Type**, and the **ICD 10 / Procedure Code**.

Step 5: Check the **Policy Sum Assured / Max Buffer**, the **Total Approved / Requested Amt**, and the **Remaining Sum Assured** to make sure the amount is within the policy limit.

Step 6: Enter the amount to be approved in **Approved Amount**. The **Approved Amount in Words** is filled automatically.

Step 7: Click the **Status** dropdown and select the decision: **APPROVED**, **DENIED**, or **NEED MORE INFO** (see Figure 12.5).

Step 8: Enter clear **Remarks** explaining the decision.

Step 9: Click the **Process PreAuth** button at the bottom of the page (see Figure 12.6). The decision is saved and the case moves to the next stage based on the selected status (see Sections 12.14 and 12.17).

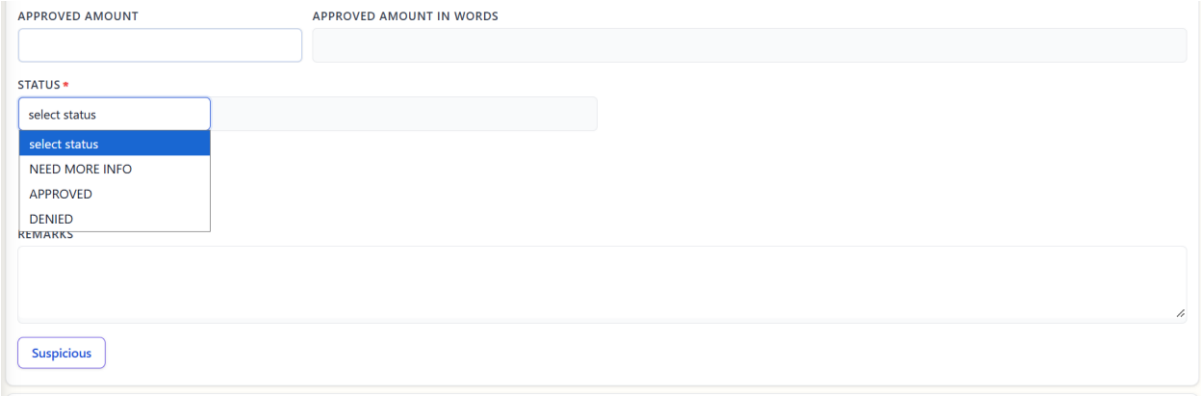

Figure 12.5: Status dropdown options

Example – Approving a Case

In this example, the Approver enters Approved Amount 10000 (shown in words as Ten Thousand Only), selects the Status APPROVED, enters the Remarks, and then clicks Process PreAuth.

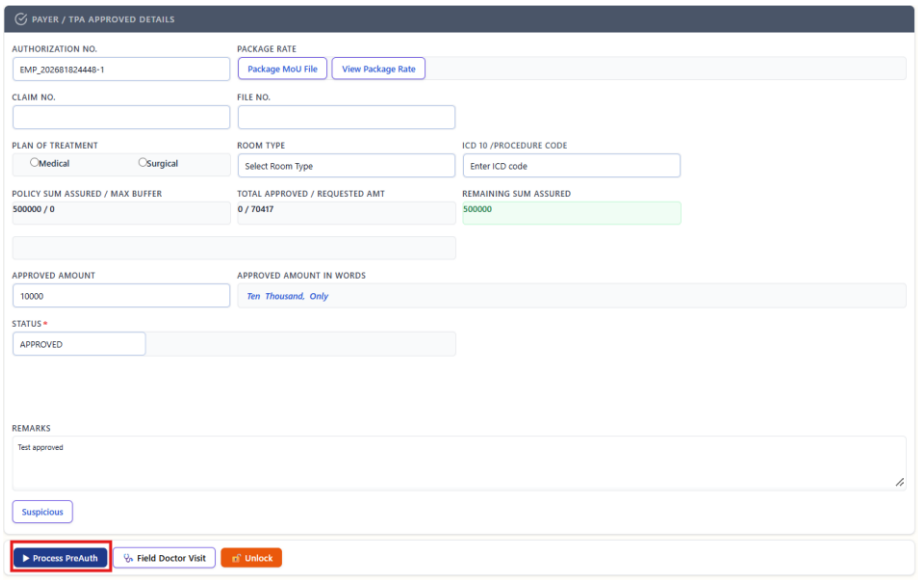

Figure 12.6: Completed decision – click Process PreAuth (highlighted in red)

12.14 Status Options and Case Flow

The status selected by the Approver decides where the case moves next.

Status	When to Select	What Happens Next
APPROVED	All details and documents are correct, and the treatment is covered.	The PreAuth is approved and the case moves to the Claims stage.
DENIED	The request is not eligible or not covered under the scheme.	The PreAuth is rejected and the case is closed.
NEED MORE INFO	Details or documents are missing, unclear, or need clarification.	The case is sent back to the DMO to resolve the query and resubmit.

Good practice: For DENIED and NEED MORE INFO, always write a clear reason in Remarks. For NEED MORE INFO, list exactly which details or documents the DMO must provide, so the query can be resolved in one round.

12.15 Field Descriptions

Field Name	Description	Example
Authorization No.	Authorization number of the PreAuth, based on the Ref ID.	EMP_202681824448-1
Package Rate	Buttons to open the Package MoU File and to view the package rate.	–
Claim No.	Claim number linked to the case.	–
File No.	File number of the case.	–
Plan of Treatment	Radio button for Medical or Surgical treatment.	Medical
Room Type	Dropdown to select the room type.	Select Room Type
ICD 10 / Procedure Code	ICD-10 or procedure code for the treatment.	–
Policy Sum Assured / Max Buffer	Total sum assured under the policy and the maximum buffer amount. Read-only.	500000 / 0
Total Approved / Requested Amt	Amount approved so far and the amount requested by the hospital. Read-only.	0 / 70417
Remaining Sum Assured	Balance sum assured available for the beneficiary. Read-only.	500000
Approved Amount	Amount approved by the Approver for this PreAuth.	10000
Approved Amount in Words	Approved amount written in words. System generated.	–
Status	Decision on the case: APPROVED, DENIED, or NEED MORE INFO.	APPROVED
Remarks	Reason or comments for the decision.	–

12.16 Button Descriptions

Button	Description
Suspicious	Marks the case as suspicious for further investigation.
Process PreAuth	Saves the Approver's decision and moves the case to the next stage.
Field Doctor Visit	Requests a field doctor visit to verify the case at the hospital.
Unlock	Releases the case lock so that the case is available again in the inbox.

12.17 After Processing – Updated Status in the Inbox

Once the Approver clicks Process PreAuth, the decision is saved and the case is updated in the Preauth Inbox. The case now appears under the Processed list with the new status, the approved amount, and the processing time.

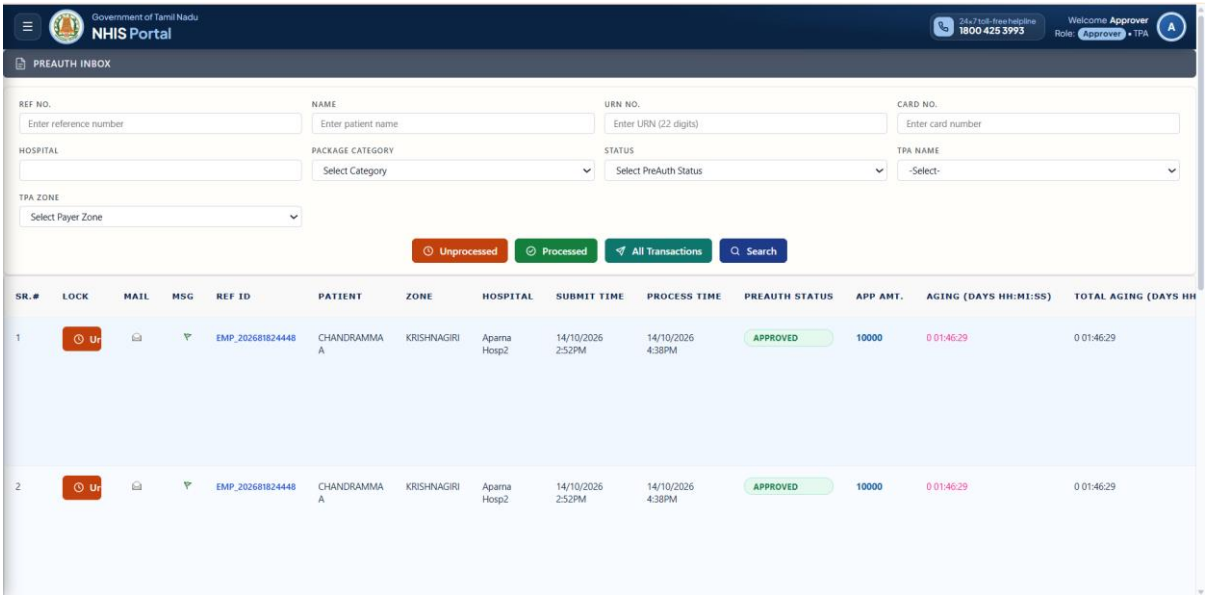

Figure 12.7: Preauth Inbox after approval – status APPROVED with approved amount 10000

12.18 Steps to Verify the Processed Case

Step 1: Click **Processed** or **All Transactions** in the Preauth Inbox.

Step 2: Search for the case using the **Ref No.** (for example, **EMP_202681824448**) or the patient **Name**, and click **Search**.

Step 3: Check that the **Preauth Status** shows the selected decision (for example, **APPROVED**).

Step 4: Check that the **App Amt.** shows the approved amount (for example, **10000**).

Step 5: Check the **Process Time** (for example, **14/10/2026 4:38PM**) and the **Aging** of the case.

Step 6: To see the full details or the approval letter, click the **Ref ID** and check the **PreAuth History** (Section 12.19).

12.19 Updated PreAuth History After Approval

When the processed case is opened, the PreAuth History table on the TPA Details page shows the Approver's decision. A complete history row confirms that the case has been processed correctly.

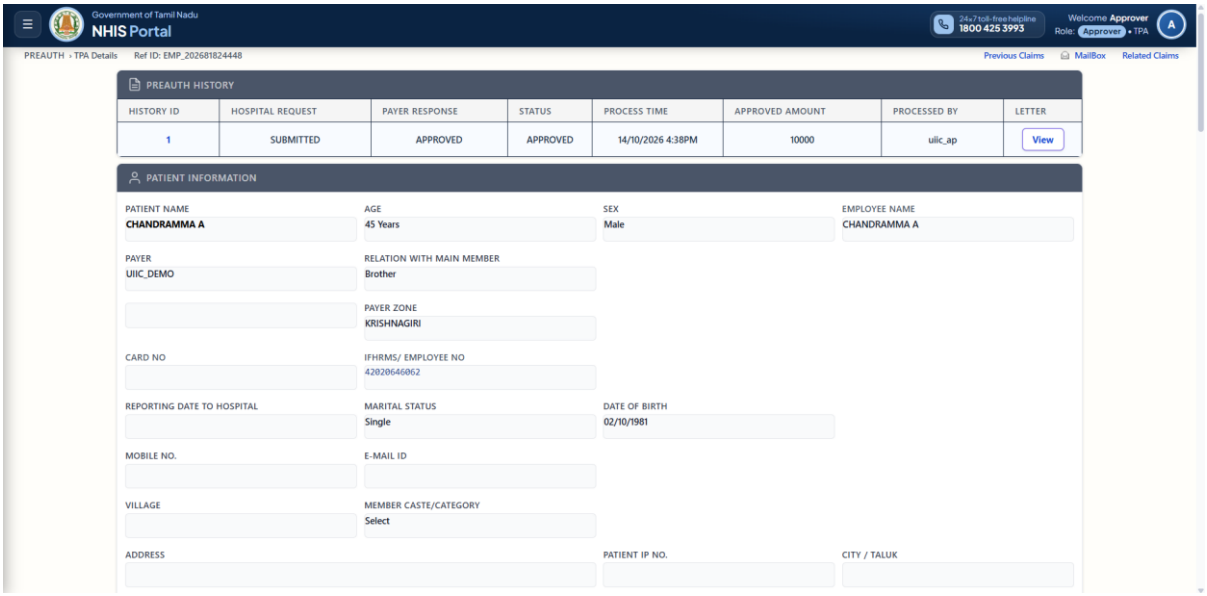

Figure 12.8: PreAuth History after approval – payer response, approved amount, and processing details

Column	Value After Approval	Meaning
History ID	1	First stage of the case.
Hospital Request	SUBMITTED	Request submitted by the hospital (DMO).
Payer Response	APPROVED	Decision given by the Approver.
Status	APPROVED	Current status of the PreAuth.
Process Time	14/10/2026 4:38PM	Date and time of the Approver's decision.
Approved Amount	10000	Amount approved for the PreAuth.
Processed By	uiic_ap	User ID of the Approver who processed the case.
Letter	View	Opens the letter for this stage, such as the approval letter.

Step 1: Open the case by clicking its **Ref ID** in the Preauth Inbox.

Step 2: In the **PreAuth History**, check that **Payer Response** and **Status** show the decision, and that **Approved Amount** and **Processed By** are filled in.

Step 3: Click **View** in the **Letter** column to open the approval letter.

> **Note:** Each further action on the case, such as a query and its response, is added as a new row in the PreAuth History, so the complete audit trail of the case can be seen in one place.

12.20 Updated Inbox Columns After Processing

Column	Description	Example
Preauth Status	Decision taken on the case by the Approver.	APPROVED
App Amt.	Amount approved for the PreAuth.	10000
Submit Time	Date and time when the hospital submitted the case.	14/10/2026 2:52PM
Process Time	Date and time when the Approver processed the case.	14/10/2026 4:38PM
Aging (Days HH:MI:SS)	Time taken to process the case at the current stage, shown as days followed by hours:minutes:seconds.	0 01:46:29
Total Aging (Days HH:MI:SS)	Total time taken for the case from submission, shown as days followed by hours:minutes:seconds.	0 01:46:29

Note: Aging helps monitor turnaround time. Cases with high aging should be reviewed on priority so that patients receive timely approval for treatment.

12.21 PreAuth Process – End-to-End Summary

The table below summarises the complete process, from PreAuth initiation by the DMO to claim approval and EFT creation.

Stage	Role	Action	Result / Status
1	DMO	Logs in and opens New PreAuth from the Main Menu.	PreAuth Request form opens.
2	DMO	Enters patient, medical, hospital, package, and cost details, and attaches documents.	Form completed.
3	DMO	Clicks Submit.	Ref ID generated; status SUBMITTED / VALIDATED.
4	Approver	Logs in, searches for the case, and opens it using the Ref ID.	TPA Details page opens.
5	Approver	Reviews all details, enters the approved amount, status, and remarks, and clicks Process PreAuth.	Decision saved.
6a	System	If APPROVED.	Case moves to the Claims stage.
6b	System	If DENIED.	Case is closed.
6c	System	If NEED MORE INFO.	Case returns to the DMO to resolve the query and resubmit.
7	DMO	After treatment, opens the case from Claims, completes the claim details and documents, and clicks Claim Submit (Section 13).	Claim status PRE-VALIDATED; claim moves to the Approver.
8	Approver	Reviews the claim, enters the approved amount, confirms the discharge summary, selects the status, enters remarks, and clicks Process Claim (Section 14).	Claim APPROVED, sent back to DMO (NMI), or DENIED.
9	System	If the claim is APPROVED.	Claim moves to FMC for EFT creation and payment.

13. DMO – Claim Submission

After the PreAuth is approved and the patient's treatment is completed, the DMO submits the claim for the case. The claim is raised against the same Ref ID as the approved PreAuth and, once submitted, moves to the Approver for review.

13.1 Open the Claims Inbox

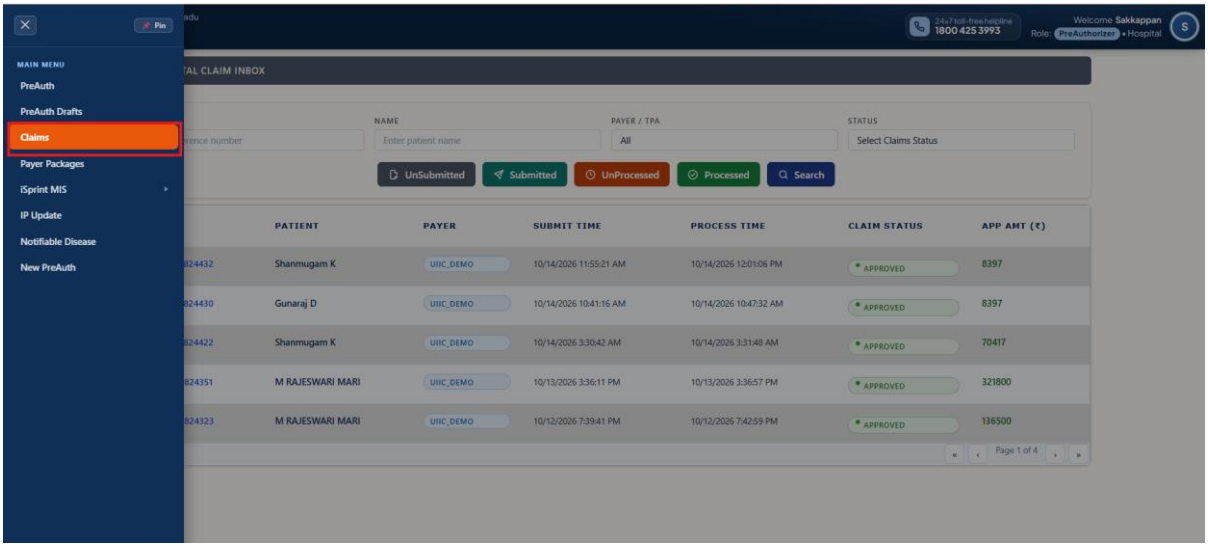

Figure 13.1: Main Menu – Claims option (highlighted in red) and the Claims Inbox

Step 1: Log in to the NHIS Portal with the DMO's User ID, Password, and Captcha (see Section 2).

Step 2: Click the **Menu (☰)** button and select **Claims** from the Main Menu.

Step 3: The **Hospital Claim Inbox** opens.

Step 4: Click **UnSubmitted** to list the cases whose claim has not yet been submitted.

Step 5: Enter the **Ref No.** (for example, **EMP_202681824448**) or the patient **Name**, and click **Search**.

Step 6: Click the **Ref ID** hyperlink of the case. The **Online Claims Submission** page opens.

13.2 Claims Inbox – Filters, Buttons, and Columns

Item	Description
Ref No. / Name	Search the claim by reference number or patient name.
Payer / TPA	Filter claims by payer. Select All to show every payer.
Status	Filter claims by claim status.
UnSubmitted	Shows cases whose claim has not yet been submitted by the hospital.
Submitted	Shows claims that have been submitted.
UnProcessed	Shows submitted claims that are waiting for the Approver's action.
Processed	Shows claims that have been processed by the Approver.
Search	Searches for claims matching the entered filters.
Ref ID	Reference number of the case. Click it to open the claim.
Patient / Payer	Name of the patient and the payer / TPA.
Submit Time / Process Time	Date and time when the claim was submitted and processed.
Claim Status	Current status of the claim: UNSUBMITTED, PRE-VALIDATED, or APPROVED (see Section 13.9).
App Amt (₹)	Approved claim amount in rupees.

13.3 Verify the Patient Information

The Online Claims Submission page opens with the breadcrumb CLAIMS › Online Claims Submission and the Ref ID of the case. Details from the approved PreAuth, such as the patient name, hospital, PreAuth status, PreAuth amount, and admission date, are filled in automatically and shown in grey.

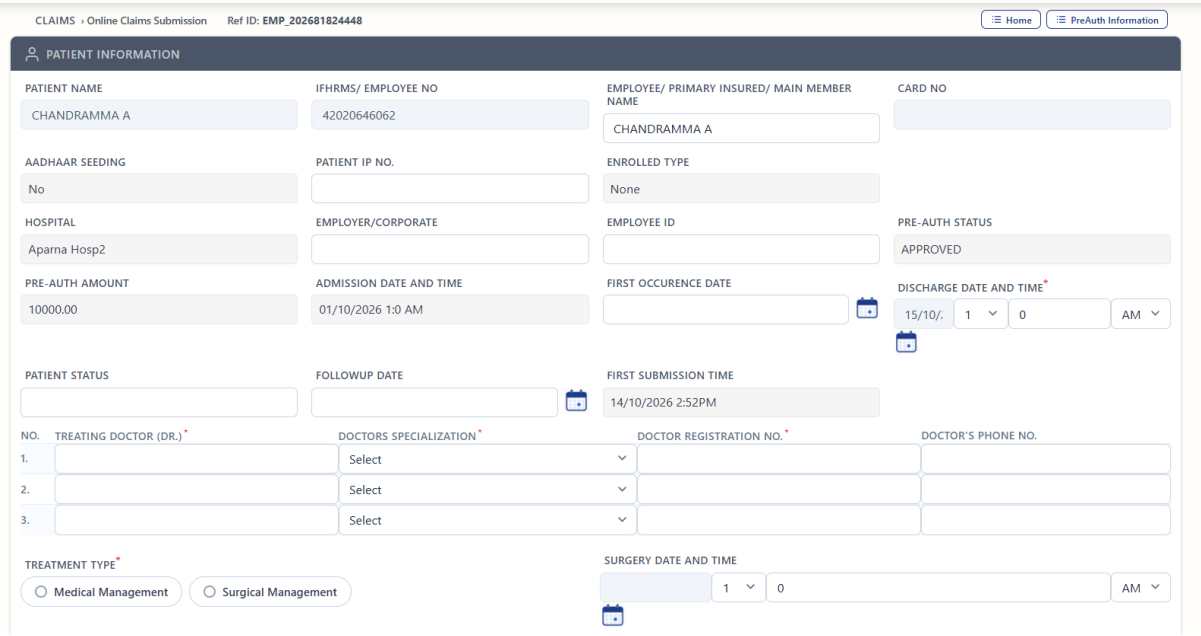

Figure 13.2: Online Claims Submission – Patient Information

Step 1: Verify the auto-filled details: **Patient Name**, **IFHRMS / Employee No**, **Hospital**, **Pre-Auth Status** (APPROVED), **Pre-Auth Amount**, and **Admission Date and Time**.

Step 2: Enter the **Patient IP No.**, **Employer / Corporate**, and **Employee ID**, if applicable.

Step 3: Select the **First Occurrence Date** using the calendar icon.

Step 4: Select the **Discharge Date and Time**: choose the date from the calendar, then the hour, minutes, and AM / PM.

Step 5: Enter the **Patient Status** and, if applicable, the **Followup Date**.

> **Tip:** Use the PreAuth Information button at the top right to view the approved PreAuth details while filling in the claim. Use Home to return to the inbox.

13.4 Enter the Treating Doctor Details

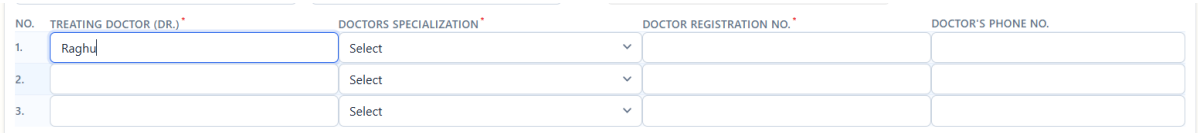

Figure 13.3: Treating Doctor details

Step 1: In row **1**, enter the name of the **Treating Doctor (Dr.)** (for example, **Raghu**).

Step 2: Select the **Doctor's Specialization** from the dropdown (see Section 7.5 for the list).

Step 3: Enter the **Doctor Registration No.** and, optionally, the **Doctor's Phone No.**.

Step 4: Repeat in rows 2 and 3 if more doctors treated the patient.

13.5 Select the Treatment Type and Enter the Diagnosis

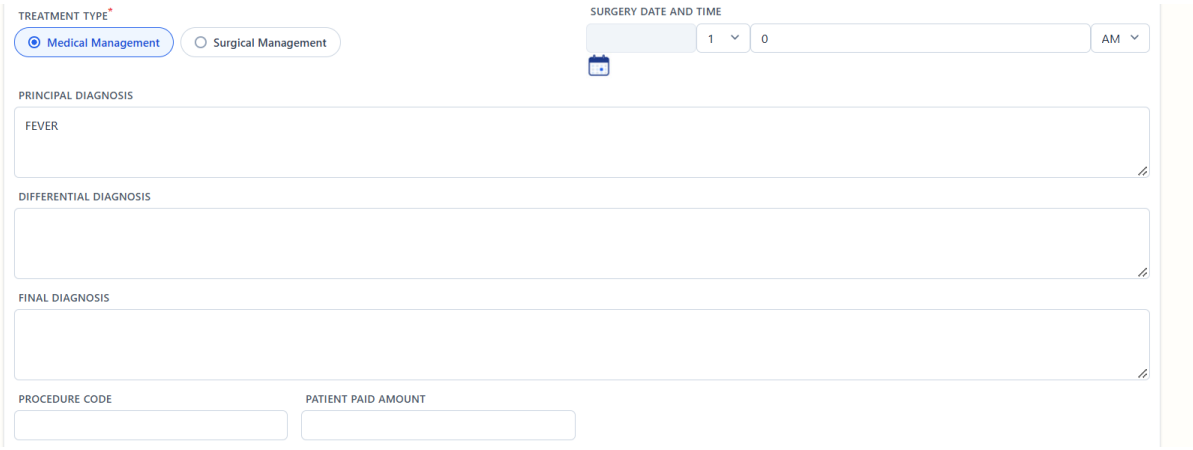

Figure 13.4: Treatment Type and Diagnosis details

Step 1: Under **Treatment Type**, select the radio button **Medical Management** or **Surgical Management**.

Step 2: If Surgical Management is selected, enter the **Surgery Date and Time**.

Step 3: Check or enter the **Principal Diagnosis** (for example, **FEVER**).

Step 4: Enter the **Differential Diagnosis** and the **Final Diagnosis**.

Step 5: Enter the **Procedure Code** and the **Patient Paid Amount**, if any.

13.6 Treatment Details – Billing Break-up and Discharge Type

In the Treatment Details section, the DMO enters the detailed services and billing break-up for the treatment, including any additional charges, and selects the Discharge Type.

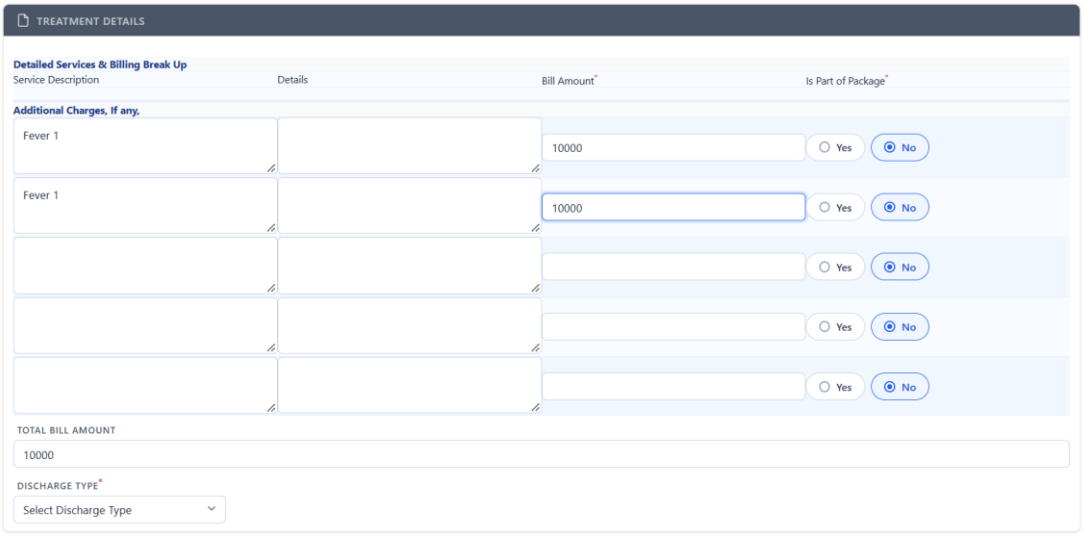

Figure 13.5: Treatment Details – Detailed Services & Billing Break Up

Step 1: Under **Detailed Services & Billing Break Up** / **Additional Charges, If any**, enter the **Service Description** in the first row (for example, **Fever 1**).

Step 2: Enter any further **Details** of the service.

Step 3: Enter the **Bill Amount** for the service (for example, **10000**).

Step 4: For **Is Part of Package**, select **Yes** if the service is covered in the approved package, or **No** if it is an additional charge. The default is No.

Step 5: Repeat for each service in the next rows (up to five rows).

Step 6: Check the **Total Bill Amount**. It is calculated from the bill amounts entered (for example, two rows of 10000 give **20000**).

Select the Discharge Type

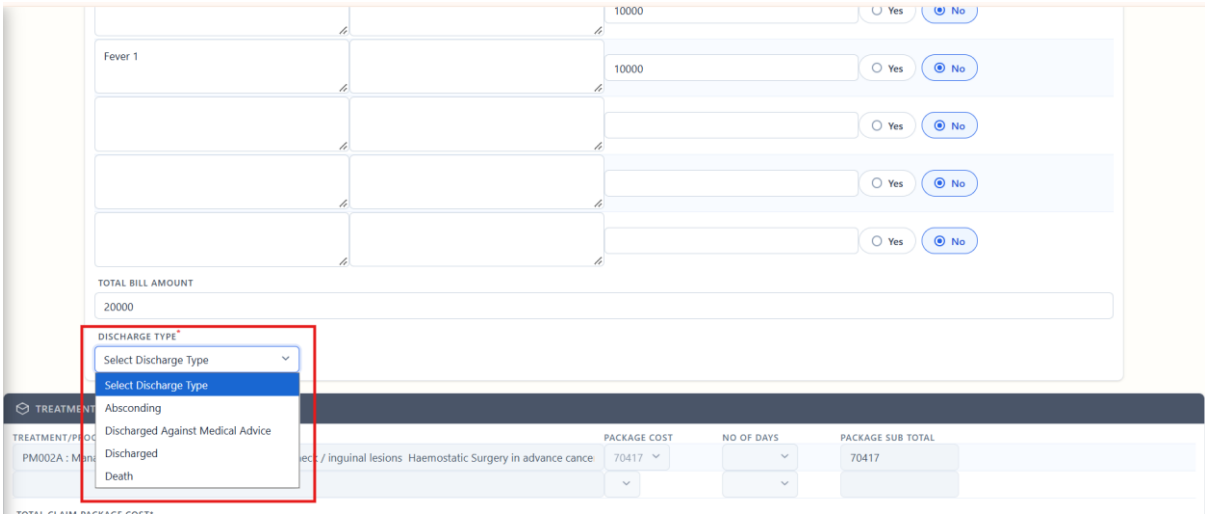

Figure 13.6: Discharge Type dropdown (highlighted in red)

Step 1: Click the **Discharge Type** dropdown (mandatory).

Step 2: Select the option that matches how the patient left the hospital (see the table below).

Discharge Type	When to Select
Discharged	The patient was discharged normally after completing treatment.
Discharged Against Medical Advice	The patient or attendant chose to leave the hospital against the doctor's advice (DAMA / LAMA).
Absconding	The patient left the hospital without informing the hospital or completing the discharge process.
Death	The patient died during the course of treatment.

> **Note:** Bill Amount, Is Part of Package, and Discharge Type are mandatory (marked with *). Make sure the bill amounts match the attached bills and that the discharge type matches the Discharge Summary.

13.7 Treatment Package, Remarks, and Documents

The Treatment / Procedure Package section shows the package approved at the PreAuth stage, with the package cost and the Total Claim Package Cost. Below it, the DMO enters the remarks, answers the High-end Drug and Investigation questions, and uploads the claim documents.

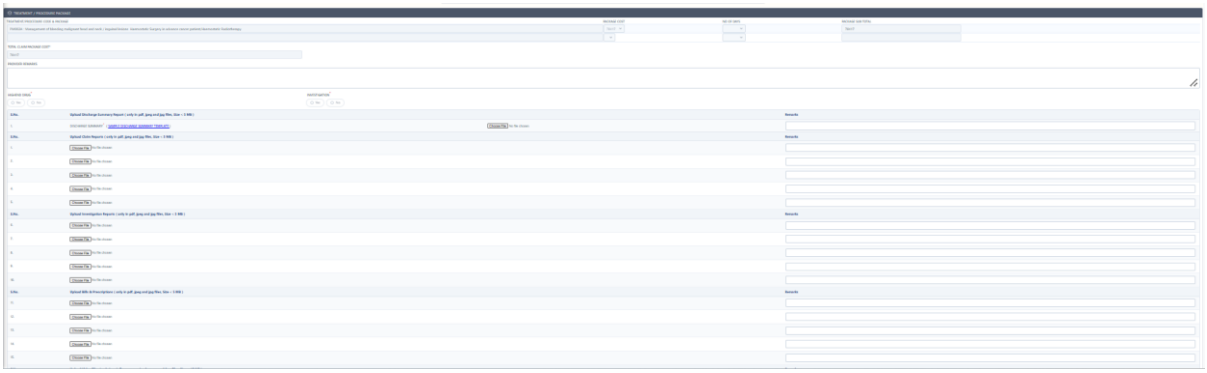

Figure 13.7: Treatment / Procedure Package, remarks, and claim document upload

Step 1: Check the **Treatment / Procedure Code & Package**, **Package Cost**, and **Total Claim Package Cost** (for example, **70417**).

Step 2: Enter any **Provider Remarks**.

Step 3: For **High-end Drug**, select **Yes** or **No**.

Step 4: For **Investigation**, select **Yes** or **No**.

Step 5: Upload the **Discharge Summary**. Click **Sample Discharge Summary Template** to see the required format.

Step 6: Upload the **Claim Reports**, **Investigation Reports**, and **Bills & Prescriptions** in their slots, and enter a short **Remark** for each file.

Document Group	Slots	Allowed Files	Mandatory
Discharge Summary Report	1	PDF, JPEG, JPG; less than 5 MB	Yes
Claim Reports	1 to 5	PDF, JPEG, JPG; less than 5 MB	As required
Investigation Reports	6 to 10	PDF, JPEG, JPG; less than 5 MB	As required
Bills & Prescriptions	11 to 15	PDF, JPEG, JPG; less than 5 MB	As required

13.8 Submit the Claim

After all mandatory details are entered and the documents are attached, the DMO submits the claim to the Approver. Before submitting, check that:

- Discharge Date and Time is entered.
- At least one Treating Doctor with Specialization and Registration No. is entered.
- Treatment Type is selected.
- Treatment Details (bill amounts and Is Part of Package) are entered, and the Discharge Type is selected.
- High-end Drug and Investigation are answered (Yes / No).
- The Discharge Summary and other required documents are uploaded.

Step 1: Review all the sections of the claim once more.

Step 2: Click the **Claim Submit** button at the bottom of the page.

Step 3: The claim is submitted and moves to the **Approver** for review. The Claim Status changes from **UNSUBMITTED** to **PRE-VALIDATED** (see Section 13.9).

> **Note:** If any mandatory field (marked with *) is missing, the claim is not submitted. Fill in the missing details and click Claim Submit again.

13.9 After Claim Submission – Claim Status

After the claim is submitted, its status is updated in the Hospital Claim Inbox. The DMO can search for the patient to track every claim and its current status.

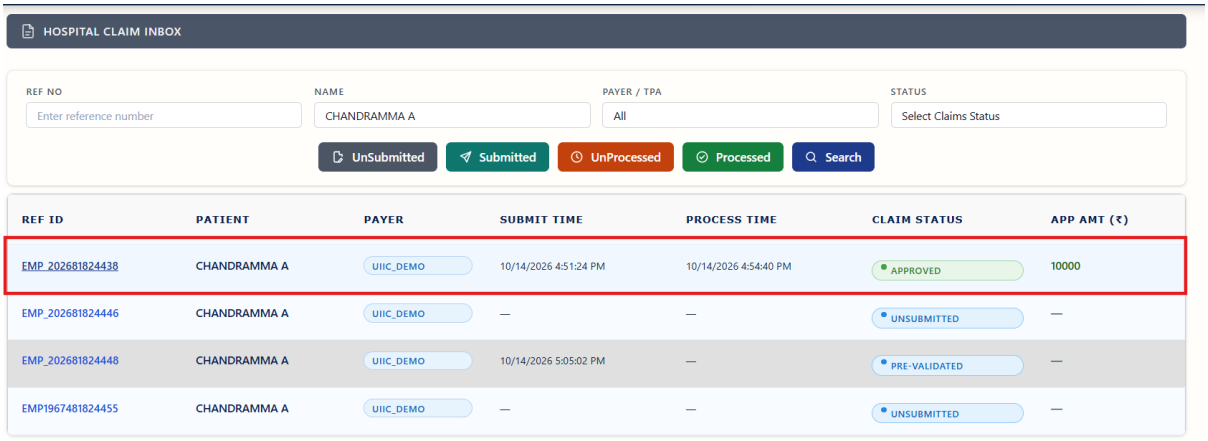

Figure 13.8: Hospital Claim Inbox – claim statuses for the patient (approved claim highlighted in red)

Step 1: Open **Claims** from the Main Menu.

Step 2: Enter the patient **Name** (for example, **CHANDRAMMA A**) or the **Ref No.**, and click **Search**.

Step 3: Check the **Claim Status** of the case. A submitted claim shows **PRE-VALIDATED** with the **Submit Time** (for example, EMP_202681824448 submitted on 10/14/2026 5:05:02 PM).

Step 4: When the Approver approves the claim, the status changes to **APPROVED** and the **Process Time** and **App Amt** are shown (for example, EMP_202681824438, approved amount 10000).

Claim Status	Meaning	Submit Time / App Amt
UNSUBMITTED	The PreAuth is approved, but the claim has not yet been submitted by the hospital.	Blank
PRE-VALIDATED	The claim has been submitted by the DMO and is waiting for the Approver's review.	Submit Time shown
APPROVED	The claim has been reviewed and approved by the Approver.	Process Time and App Amt shown

> **Tip:** Use UnSubmitted to find claims that still need to be submitted, and Submitted or Processed to track claims already sent to the Approver.

13.10 Claim Form – Field Descriptions

Field Name	Description	Mandatory / Type
Patient Name, IFHRMS / Employee No, Card No, Aadhaar Seeding, Enrolled Type, Hospital	Patient and member details from the approved PreAuth.	Auto-filled, read-only
Employee / Primary Insured / Main Member Name	Name of the main member.	Auto-filled
Pre-Auth Status / Pre-Auth Amount	Status and approved amount of the PreAuth.	Auto-filled, read-only
Admission Date and Time	Date and time of admission.	Auto-filled, read-only
First Submission Time	Time when the PreAuth was first submitted.	Auto-filled, read-only
Patient IP No.	In-patient number given by the hospital.	Optional
Employer / Corporate, Employee ID	Employer details of the main member.	Optional
First Occurrence Date	Date when the ailment first occurred.	Optional
Discharge Date and Time	Date and time of the patient's discharge.	Mandatory
Patient Status	Status of the patient at discharge.	Optional
Followup Date	Date of the follow-up visit, if any.	Optional
Treating Doctor, Specialization, Registration No.	Details of the treating doctor(s).	Mandatory
Doctor's Phone No.	Contact number of the doctor.	Optional
Treatment Type	Medical Management or Surgical Management.	Mandatory
Surgery Date and Time	Date and time of surgery, for surgical cases.	If surgical
Principal / Differential / Final Diagnosis	Diagnosis details of the patient.	As required
Procedure Code	Procedure code of the treatment.	Optional
Patient Paid Amount	Amount paid by the patient, if any.	Optional
Service Description / Details	Description and details of each service billed.	As required
Bill Amount	Amount billed for each service.	Mandatory
Is Part of Package	Yes if the service is covered in the package; No if it is an additional charge.	Mandatory (default No)
Total Bill Amount	Total of all the bill amounts entered.	Auto-calculated
Discharge Type	Discharged, Discharged Against Medical Advice, Absconding, or Death.	Mandatory

Field Name	Description	Mandatory / Type
Total Claim Package Cost	Total claim amount based on the package.	Mandatory, auto-filled
Provider Remarks	Remarks from the hospital.	Optional
High-end Drug / Investigation	Yes / No answers about high-end drugs and investigations used.	Mandatory

14. Approver – Claim Review

After the DMO submits the claim, the case appears in the Approver's claim bucket. The Approver opens the case and reviews the claim history, patient and treatment details, documents, billing break-up, and package before taking a decision. The screenshots in this section show an example claim (Ref ID EMP_202681824438).

14.1 Open the Claim for Review

Step 1: Log in to the NHIS Portal with the Approver's User ID, Password, and Captcha (see Section 12.1).

Step 2: Open the claim approval bucket from the Main Menu.

Step 3: Search for the case using the **Ref No.** or the patient **Name**, and click **Search**.

Step 4: Click the **Ref ID** hyperlink. The **Claims History** page opens (breadcrumb **CLAIMS › Claims History**).

Step 5: Review each section of the claim as described in Sections 14.2 to 14.7.

14.2 Claim History and Patient Information

The top of the page shows the Ref ID and the Claim History table, followed by the Patient Information. Each row of the Claim History shows one stage of the claim.

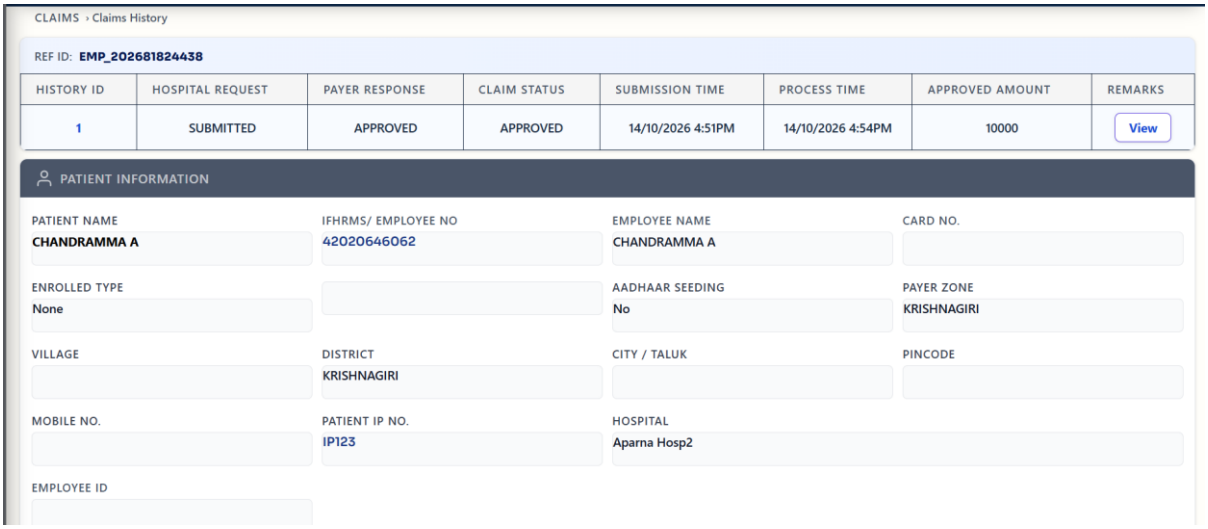

Figure 14.1: Claims History page – Claim History and Patient Information

Column	Description	Example
History ID	Serial number of the claim stage.	1
Hospital Request	Request sent by the hospital.	SUBMITTED
Payer Response	Response given by the Approver.	APPROVED
Claim Status	Current status of the claim.	APPROVED
Submission Time	Date and time when the claim was submitted.	14/10/2026 4:51PM
Process Time	Date and time when the claim was processed.	14/10/2026 4:54PM
Approved Amount	Amount approved for the claim.	10000
Remarks	View button to open the remarks or letter for that stage.	View

Patient Information to verify: Patient Name, IFHRMS / Employee No, Employee Name, Card No., Enrolled Type, Aadhaar Seeding, Payer Zone, Village, District, City / Taluk, Pincode, Mobile No., Patient IP No. (for example, IP123), Hospital, and Employee ID.

14.3 PreAuth, Admission, and Treatment Details

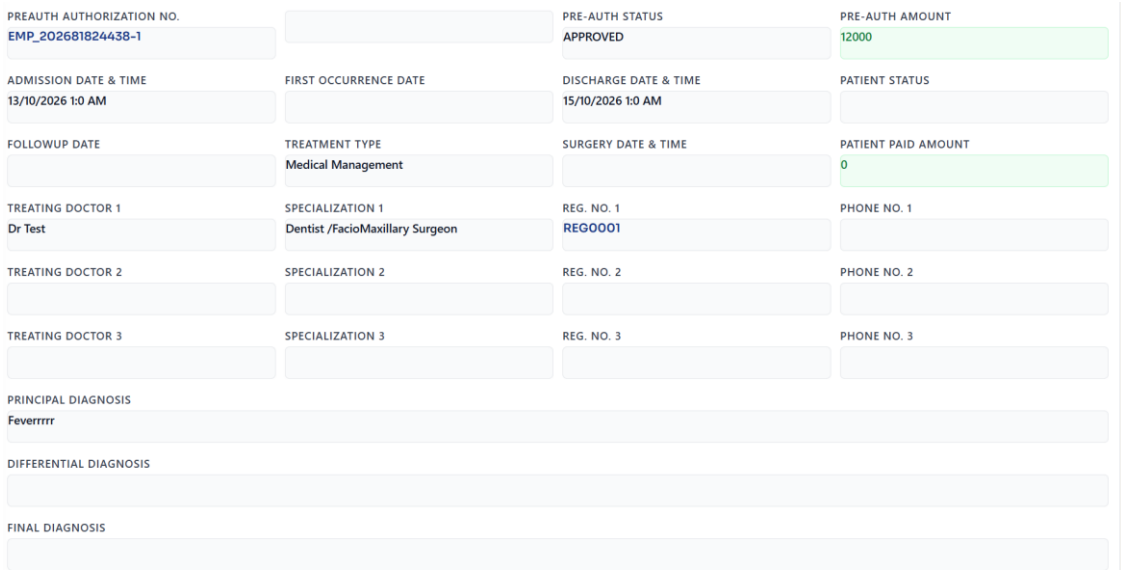

Figure 14.2: PreAuth, admission, treating doctor, and diagnosis details

Field	What to Check	Example
PreAuth Authorization No.	Authorization number of the approved PreAuth.	EMP_202681824438-1
Pre-Auth Status / Amount	PreAuth must be APPROVED. Compare the claim amount with the PreAuth amount.	APPROVED / 12000
Admission / Discharge Date & Time	Dates must match the Discharge Summary.	13/10/2026 1:0 AM – 15/10/2026 1:0 AM
First Occurrence Date, Patient Status, Followup Date	Check if entered.	–
Treatment Type	Must match the treatment given.	Medical Management
Surgery Date & Time	Required for surgical cases.	–
Patient Paid Amount	Amount paid by the patient, if any.	0
Treating Doctor 1–3, Specialization, Reg. No., Phone No.	Doctor details and registration numbers.	Dr Test, Dentist / FacioMaxillary Surgeon, REG0001
Principal / Differential / Final Diagnosis	Diagnosis must match the medical records.	Feverrrr

14.4 Documents & Files

The Documents & Files section lists all files uploaded by the hospital, grouped by type. Each file can be downloaded or viewed.

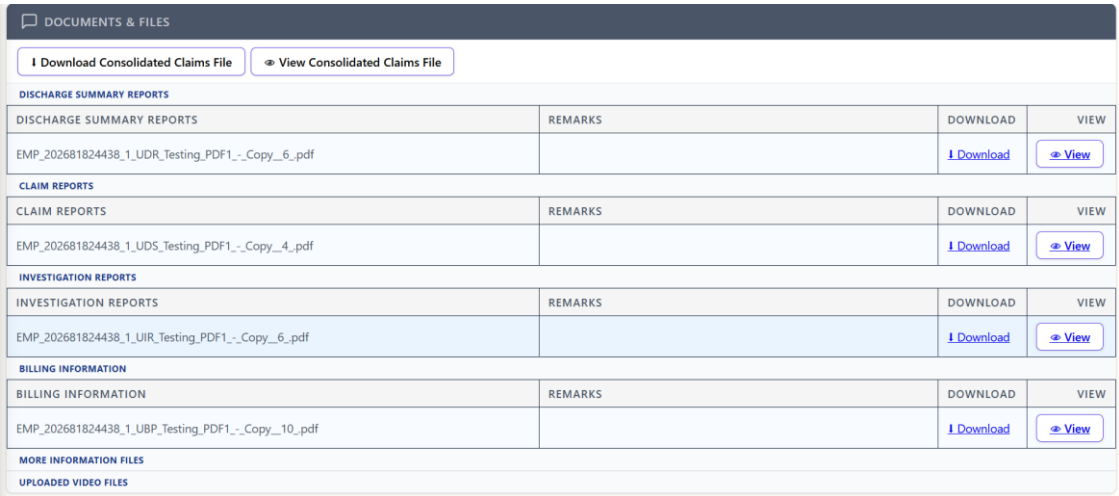

Figure 14.3: Documents & Files uploaded with the claim

Step 1: Click **View Consolidated Claims File** to see all documents together, or **Download Consolidated Claims File** to save them as one file.

Step 2: To check a single document, click **View** (opens the file) or **Download** (saves the file) in its row.

Step 3: Check every group: **Discharge Summary Reports**, **Claim Reports**, **Investigation Reports**, **Billing Information**, **More Information Files**, and **Uploaded Video Files**.

Step 4: Confirm that the documents belong to the patient and support the diagnosis, treatment, and billed amount.

14.5 Detailed Services & Billing Break Up

This section shows the billing break-up entered by the hospital. For each service, the Approver confirms whether it is part of the package and decides the payable amount.

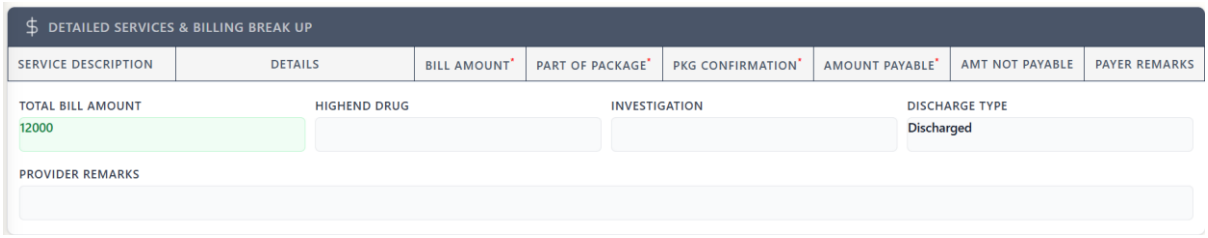

Figure 14.4: Detailed Services & Billing Break Up

Column / Field	Description	Entered By
Service Description / Details	Service billed by the hospital and its details.	Hospital
Bill Amount	Amount billed for the service.	Hospital
Part of Package	Hospital's indication of whether the service is part of the package.	Hospital
Pkg Confirmation	Approver's confirmation of whether the service is part of the package.	Approver (mandatory)
Amount Payable	Amount the Approver agrees to pay for the service.	Approver (mandatory)
Amt Not Payable	Part of the bill amount that is not payable.	Approver
Payer Remarks	Approver's remarks on the service.	Approver
Total Bill Amount	Total amount billed by the hospital.	System (e.g. 12000)
High-end Drug / Investigation	Hospital's answers about high-end drugs and investigations.	Hospital
Discharge Type	How the patient was discharged.	Hospital (e.g. Discharged)
Provider Remarks	Remarks from the hospital.	Hospital

14.6 Treatment / Procedure Code & Package

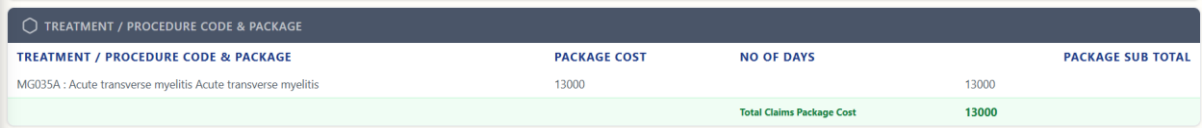

Figure 14.5: Treatment / Procedure Code & Package

Field	Description	Example
Treatment / Procedure Code & Package	Package code and name for the treatment.	MG035A : Acute transverse myelitis
Package Cost	Cost of the package.	13000
No of Days	Number of days for the package, if applicable.	–
Package Sub Total	Total for this package.	13000
Total Claims Package Cost	Total cost of all packages in the claim.	13000

14.7 Claim Review Checklist

Before taking a decision on the claim, the Approver should confirm the following:

- The PreAuth for the case is **APPROVED** and the claim is for the same patient and Ref ID.
- Admission and discharge dates match the Discharge Summary, and the Discharge Type is correct.
- Treatment type, diagnosis, and package match the medical records.
- Treating doctor details and registration numbers are entered.
- All required documents are uploaded, readable, and belong to the patient.
- The billed services are supported by bills, and each service is correctly confirmed as part of the package or not.
- The payable amount is within the package cost, the PreAuth amount, and the remaining sum assured.

> **Note:** Compare the Pre-Auth Amount, the Total Bill Amount, and the Total Claims Package Cost. Any difference should be justified by the documents, or explained in the Payer Remarks.

14.8 Payer / TPA / CGHS / ECHS Approved Details

After reviewing all the claim details, the Approver records the claim decision in the Payer / TPA / CGHS / ECHS Approved Details section. Here the Approver enters the payable and approved amounts, confirms the discharge summary, selects the status, and enters the final remarks.

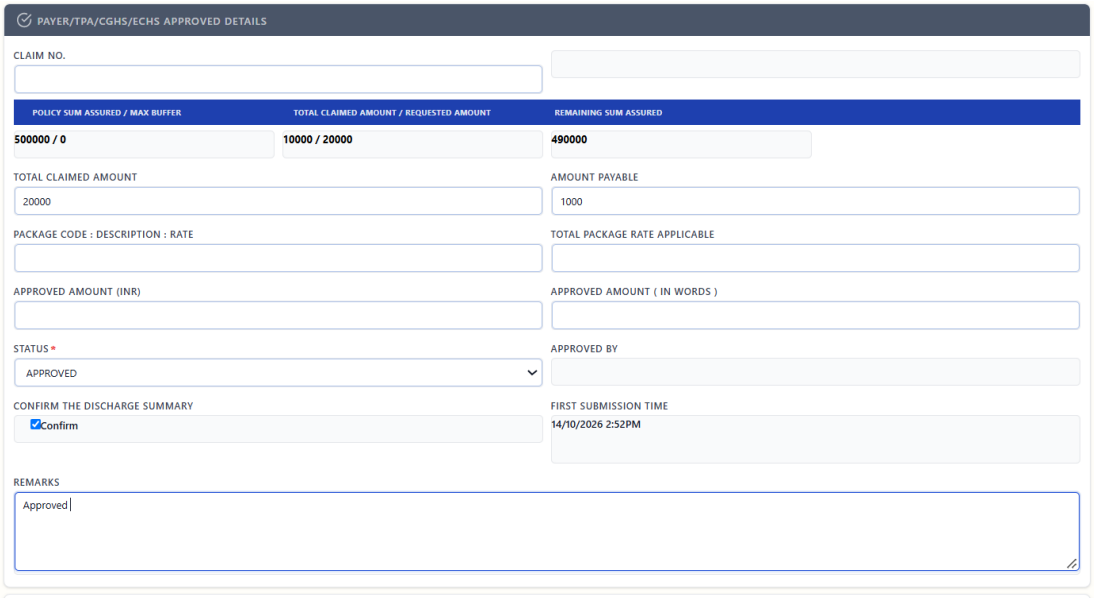

Figure 14.6: Payer / TPA / CGHS / ECHS Approved Details – claim decision

14.9 Steps to Enter the Claim Decision

Step 1: Enter the **Claim No.**, if applicable.

Step 2: Check the **Policy Sum Assured / Max Buffer** (for example, 500000 / 0), the **Total Claimed Amount / Requested Amount** (10000 / 20000), and the **Remaining Sum Assured** (490000).

Step 3: Check the **Total Claimed Amount** (for example, **20000**) and enter the **Amount Payable**.

Step 4: Enter or check the **Package Code : Description : Rate** and the **Total Package Rate Applicable**.

Step 5: Enter the **Approved Amount (INR)**. Check the **Approved Amount (In Words)**.

Step 6: Tick **Confirm** under **Confirm the Discharge Summary** after verifying the discharge summary.

Step 7: Select the **Status**: **APPROVED**, **NEED MORE INFO (NMI)**, or **DENIED**.

Step 8: Enter the final remarks in **Remarks** (for example, **Approved**).

Step 9: Click **Process Claim** at the bottom of the page (see Section 14.10).

14.10 Process the Claim

After the status and final remarks are entered, the Approver clicks Process Claim. An approved claim then moves to FMC for EFT (Electronic Fund Transfer) creation, so that the payment can be released to the hospital.

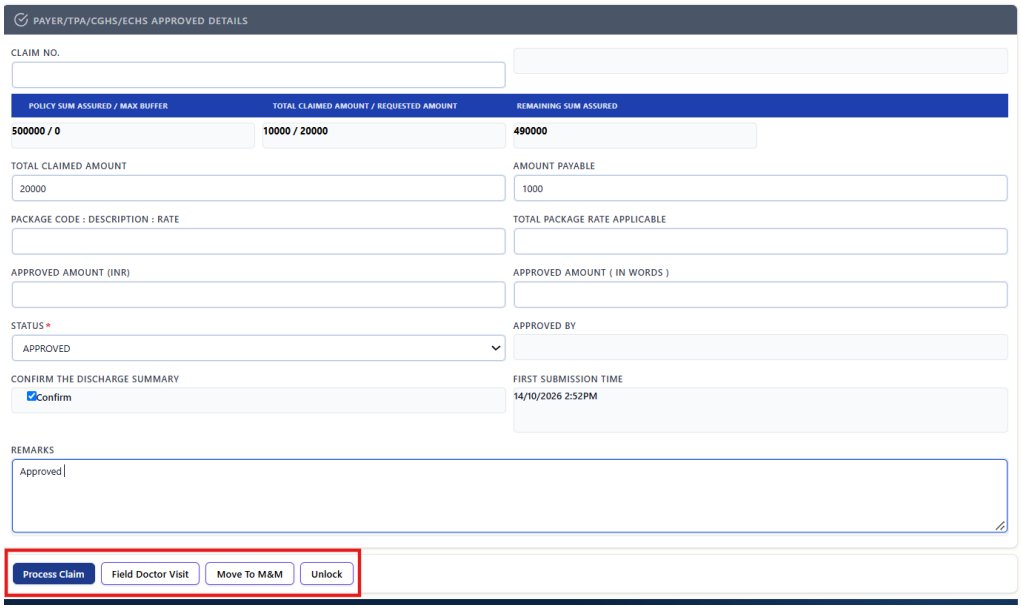

Figure 14.7: Completed claim decision and action buttons (highlighted in red)

Step 1: Check that the **Status** (for example, **APPROVED**), the **Approved Amount**, **Confirm the Discharge Summary**, and the **Remarks** are correct.

Step 2: Click the **Process Claim** button.

Step 3: The claim decision is saved. An approved claim moves to **FMC** for **EFT creation**.

Button	Description
Process Claim	Saves the claim decision and moves the claim to the next stage. An approved claim moves to FMC for EFT creation.
Field Doctor Visit	Requests a field doctor visit to verify the case at the hospital.
Move To M&M	Moves the claim to M&M for further review.
Unlock	Releases the claim lock so that the claim is available again in the inbox.

14.11 Claim Status Options and Case Flow

Status	When to Select	What Happens Next
APPROVED	The claim is correct, supported by documents, and payable.	The claim is approved and moves to FMC for EFT creation. The Hospital Claim Inbox shows APPROVED with the App Amt.
NEED MORE INFO (NMI)	Details or documents are missing, unclear, or need clarification.	The claim is sent back to the DMO to resolve the query and resubmit.
DENIED	The claim is not eligible or not payable under the scheme.	The claim is rejected and closed.

Good practice: Write clear, specific final remarks. For NMI, list exactly which details or documents the hospital must provide. For DENIED, state the reason for rejection. For a partial approval, explain why the approved amount is less than the claimed amount.

14.12 Approved Details – Field Descriptions

Field Name	Description	Example / Type
Claim No.	Claim number of the case.	Entered by Approver
Policy Sum Assured / Max Buffer	Total sum assured under the policy and the maximum buffer. Read-only.	500000 / 0
Total Claimed Amount / Requested Amount	Amount claimed and amount requested by the hospital. Read-only.	10000 / 20000
Remaining Sum Assured	Balance sum assured available for the beneficiary. Read-only.	490000
Total Claimed Amount	Total amount claimed by the hospital.	20000
Amount Payable	Amount found payable after review.	1000
Package Code : Description : Rate	Package code, description, and rate applied.	–
Total Package Rate Applicable	Total package rate applicable for the claim.	–
Approved Amount (INR)	Final amount approved for the claim, in rupees.	Entered by Approver
Approved Amount (In Words)	Approved amount written in words.	–
Status	Claim decision: APPROVED, NEED MORE INFO, or DENIED.	Mandatory
Approved By	User who approved the claim. Filled by the system.	Read-only
Confirm the Discharge Summary	Checkbox to confirm that the discharge summary has been verified.	Confirm
First Submission Time	Time when the case was first submitted. Read-only.	14/10/2026 2:52PM
Remarks	Final remarks explaining the claim decision.	Approved

15. Troubleshooting

Problem	Possible Cause	Solution
Invalid User ID or Password	Wrong User ID or password entered	Re-check the entries using the eye icon, or reset via Forgot password?
Invalid Captcha	Captcha typed incorrectly or expired	Click Refresh (↻) and enter the new Captcha.
Captcha image not readable	Unclear characters	Click Refresh (↻) to load a new Captcha.
Page not loading	Internet or browser issue	Check your connection, refresh the page, or try another browser.
No results after search	Wrong values entered or no matching case	Check the entered values (URN must be 22 digits), clear unneeded filters, or click All Transaction.
Cannot proceed on the PreAuth form	Mandatory (*) field left blank, e.g. Health Scheme not selected	Select a Health Scheme and fill in all fields marked with *.
Employee details not filled after search	Wrong IFHRMS / Employee Number or wrong Health Scheme selected	Check the number and the selected Health Scheme, then click Search again.
Cannot proceed from Patient Medical Details	Chief Complaints, Diagnosis, or Treatment Type not entered	Fill in all fields marked with * and select Medical or Surgical Management.
Cannot proceed from Hospital Details	Admission Date / Time, Expected Discharge Date, Room / Ward Type, or treating doctor details missing	Fill in all fields marked with *, including at least one treating doctor with specialization and registration number.
Package list does not appear	Fewer than three characters typed, or no matching package	Type at least three characters of the package code or name. Check the spelling.
Package Cost dropdown is empty	Package not selected from the list	Type the code again and click the package in the list so the cost loads.
Treatment Cost is blank or wrong	Package or Package Cost not selected, or package not added	Go back to Section 8, select the package and its cost, and click Add.
File cannot be uploaded	Wrong file type, or file larger than the size limit	Use PDF, JPEG or JPG under 5 MB for documents, or a supported video format under 15 MB. Compress or convert the file if needed.
Wrong file uploaded	Incorrect file selected in a slot	Click Choose File in the same slot and select the correct file.

Problem	Possible Cause	Solution
Form not submitted after clicking Submit	One or more mandatory (*) fields are empty	Use the checklist in Section 11.1, fill in the missing fields, and click Submit again.
Entered details cleared by mistake	Reset button clicked	Enter the details again. Click Reset only to clear the whole form.
Submitted case not visible to Approver	Filters too narrow, or wrong status selected	Click Unprocessed or All Transactions, or search using the Ref ID.
Cannot process the PreAuth	Status not selected	Select a Status (APPROVED, DENIED, or NEED MORE INFO) and click Process PreAuth.
Approved amount not accepted	Amount is more than the requested amount or the remaining sum assured	Check Total Approved / Requested Amt and Remaining Sum Assured, and enter an amount within the limit.
Processed case not shown in Unprocessed list	Case has already been processed	Click Processed or All Transactions and search using the Ref ID.
Case not found in Claims Inbox	Wrong list selected, or PreAuth not yet approved	Click UnSubmitted and search using the Ref ID. Check that the PreAuth status is APPROVED.
Claim not submitted	Mandatory field or Discharge Summary missing	Use the checklist in Section 13.8, complete the missing details, and click Claim Submit again.
Total Bill Amount does not match the bills	Bill amount entered wrongly or a row missed	Check each Bill Amount row against the attached bills and correct it.
Uploaded document does not open	Browser blocks the file, or the file is damaged	Use Download instead of View, or open the Consolidated Claims File. If the file is damaged, raise a query to the hospital.
Claim decision not saved	Status not selected	Select a Status (APPROVED, NEED MORE INFO, or DENIED), enter Remarks, and click Process Claim again.
Account locked	Multiple failed login attempts	Contact the helpline at 1800 425 3993.
